ACKNOWLEDGEMENT

First of all, I submit my thesis at the feet of Almighty. I thank Almighty with whose mercy, it has been made possible for me to reach so far. Today with humility, bowed head, misty eyes, and folded hands when, I am thanking Almighty in these blissful moments, I am incapable of expressing my innermost into words. Like in any sphere of life, in research too, it is quite easy to look back at things and analyze what went wrong or what could have been done for its betterment. But, at the time of carrying out such a Herculean task one really finds himself against a head wind. Research is an arduous task, which despite of consistent and dedicated mind with regards to strenuous and hard labour also requires patience with the benediction and grace of Almighty.

Mere words can never encompass one’s profound inward emotions of ineffable indebtedness. The same perplexity haunts inside me in penning down my sagacious sense of gratitude and admiration towards my venerable guide Dr. Vipin Saini, Director (research), Maharishi Markandeshwar College of Pharmacy, Maharishi Markandeshwar University, Mullana-Ambala, Haryana for her illuminating guidance, unflinching support, incredible perseverance and bountiful affection sprinkled on me right from the conception to the completion of my work.

I am equally indebted to my co-supervisor, Dr. Sumitra Dahiya, Associate Professor, Department of Pharmaceutical Sciences, Guru Jambeshwer University, Hisar, Haryana. I deeply acknowledge her timely support, inspiration and invaluable
suggestions. It was because of her blessings, care, cooperation and advise that I was able to give thesis its final form. This acknowledgement can not be complete without mentioning Dr. Ashok Kumar, for his affection and support.

I wish to express my heartiest thanks to Mr. Tarsem Garg Ji, Chairman, Maharishi Markandeshwar University, Mullana-Ambala, Haryana for providing me the opportunity and all necessary facilities to accomplish this endeavor successfully.

I am also grateful to the faculty members Dr. Sumeet Gupta, Dr. Vichitra Kaushik, Dr. Ranhdir Dahiya, Dr. Abhay, Dr. Gyati, Dr. Atul Gupta, Dr. Dinesh Metha, Dr. Rina Das Mehta, Mrs. Suman Kamboj, Mr. Akash Jain, Mrs. Jasmine Jain, Mr. Sunil Kamboj, Mr. Girish & Ms Manisha.

I would like to extend my thanks to Mr. Karamchand, Mr. Mangeshwer and other laboratory staff for their active co-operation. I also extend my thanks to Mr. Paeveen and all other non-teaching staff for their active cooperation and invaluable technical assistance.

My vocabulary knows no words to acknowledge the highly encouraging, loving & unwavering support, selfless sacrifices and valuable guidance that I received from my loving & dearest companion Dr. Parminder Nain, whose love sparked in me the endless, boundless, tremendous, bountiful energy enough to drag myself away from frustration and hindrance through my path of success.
I express my sincere love and affection towards all those benevolent souls, true friends, junior and seniors. My sincere thanks to research students Ms. Anu, Ms. Neha and Ms. Preeti for their valorous help and co-operation.

I find it difficult to pen down my deepest sense of indebtedness toward my parents, who soulfully provided me their moral support, unbounded affection, sweet love, constant inspiration and the right impetus to undertake the challenge of this proportion like all other spheres of life, for what I cannot measure but treasure. Words are a scanty representation of sentiments, but without the love and support of my lovable brothers Jasdeep Sidana & Dilpreet Sidana for their categorical support that is indeed pivotal in all my endeavors.

Perhaps this work could not have been completed without the timely help of Ms. Sarita, Mr. Rohit, Ms. Palak, Mr. Sagar who always bestowed courage on me for completing this gigantic task as it appeared to me in the beginning.

I am fortunate enough to have the best of family that God could provide on this earth.

Needless to say, errors and omissions are mine.

---

Jaspreet Kaur Sidana
