“In the name of Almighty, the most beneficial the most merciful”

All praises to Almighty for granting me a life full of uncountable blessings. Indeed without his grace nothing could be accomplished. I would like to extend my heartiest thanks my supervisor Dr. Rais Ahmad for giving me the opportunity to be a part of his research team. I thank him for his great patience, constructive criticism and useful suggestions in the course of developing scientific temper besides highlighting the roles of moral and ethical values in education and research. Special thanks are due to Prof. Asif Ali Khan who has been an excellent guide and mentor since the time I was a juvenile in the field of research. I express my heartiest gratitude to Prof. R.A.K Rao, Chairperson, Department of Applied Chemistry, A.M.U., for providing necessary facilities in the department. I would like to thank all the faculty members as well the non teaching staff of Department of Applied Chemistry, A.M.U., and Aligarh who have always been a source of inspiration for me. I have no words to express my gratitude and thanks to my parents for their limitless sacrifices to enrich my future. Their selfless care, love, support, prayers and advices helped me to face any challenge especially in the period of doubt and despair. I would also like to mention on this note my nephew Abu Talha, a graduate student but a deeply intellectual mind and a mature poet. Whenever I felt tired and lost in this journey, his poetry and discussions on every aspect of life re-energized me. It’s amazing how far you can go, just because someone believed in you. Having a support system is like having a safety net below you at all times even when you have the slightest fall. I would like to express my earnest thanks and acknowledgement to my support
Without Dr. Sakshi Singh, the successful accomplishment of my research work would not have been possible.

Further, I wish to express my gratefulness to my seniors Shakeeba Aapa, Nida Aapa, Bushra Aapa, Rizwan Bhai, Quasim and Anam for their invaluable assistance in the field of research and otherwise. It was because of having these people as my labmates and seniors that I never realized the absence of siblings around me and how time went by so fast!

During this unforgettable period of my research work, I can’t forget the contributions and kind support of my friends and seniors Majid Jamali, Afsar Bhai, Ghulam Bhai, Firdous, Deepak, Lateef Bhai, Shoeb Bhai, Sharique Bhai, ShahAlam Bhai, Ehtisham Bhai, Aasim Bhai, Shadab Bhai, Tauseef Bhai and my young hostel mates Wasif, Farhan and Rahat. My apologies for missing out any names but all of them have a special place in my heart.

Finally, I express my special thanks to University Grants Commission, India and DST-PURSE for providing me NON-NET and JRF Fellowships during research work.

MOHD ZEESHAN
