List of figures x

List of plates xii

## CHAPTER I

1-23

- Introduction 1
- Statement of problem 4
- Biodiversity 6
- Choice of the study area 7
- Objectives 8
- Hypotheses 8
- Data base 8
- Methodology 14
- Problems and limitations 15
- Introduction to the study area

## CHAPTER II

24-47

CONCEPTUAL FRAMEWORK AND LITERATURE REVIEW

- Introduction 24
- Dust as a health hazard 25
- Recognition and evaluation of health hazards 27
- Environmental approach 28
- Global initiatives 34
- Mining projects and environmental impact assessments 37
- Strategic environmental assessments 39
- Coalmine environment and health hazards to the mineworkers 43
- Blasting in opencast coal mines 43
- Coalmining and effects on indigenous communities 45
CHAPTER III

MINING ENVIRONMENT, MINING POLICIES AND ENVIRONMENTAL IMPACT ASSESSMENT (EIA): A CRITICAL APPRAISAL

- Introduction 48
- Beginning of coal mining in Jharkhand 48
- Indian coalmining scenario 49
- Coal mining and Employment 49
- Machinery used in opencast mining 53
- Coal production trends: Opencast mines versus underground mines 54
- Coalmine safety and environment 57
- Stages of a mine project 61
- Backdrop of coal mining in India 62
- Geographical location and geology of the coal reserves in India 63
- Geography and geology of the coalfields in Jharkhand 64
- Coal India Limited 66
- Mining regulations in retrospect 67
- Mines Acts 67
- An overview of the mineral policy of India 68
- CMPDI 74
- Major environmental acts/statutes enacted by the Govt. of India 77
- Suggestions for an efficient EIA/EMS at the operational level 78

CHAPTER IV

SOCIO-ECONOMIC PROFILE OF THE COAL MINE WORKERS AND THEIR HEALTH PATTERN

- Introduction 81
- Migration pattern 82
- Religious pattern 85
- Tribal population 86
- Caste pattern 86
- Educational qualification 87
- Mineworkers household 88
- Distance of residence from workplace 91
- Commuting arrangement from home to workplace 91
- Paternal occupation pattern 92
- Reason to opt for coalmine job 94
- Addiction pattern 94
- Health pattern 95
- Analysis and discussion 96
CHAPTER V

HEALTH HAZARDS, RISK PERCEPTIONS AND HEALTH STATUS OF THE MINEWORKERS

- Introduction
- Workers health and safety concerns
- Perception analysis: work areas bearing risks
- Analysis and interpretation
- Perception analysis: physical health hazards
- Perception about risk/safety/hazards/accidents
- Fatalities and Injuries in Coal India Limited
- Perception Analysis: mental health hazards
- Preventive steps taken by the company
- Mineworkers health status in the last one year
- Physical health hazards and existing health status of the mineworkers
- Analysis and interpretation
- Open cast mines
- Underground mine
- Summing up

CHAPTER VI

ENVIRONMENTAL ISSUES RELATED TO COAL MINING: A CASE STUDY OF SOUTH KARANPUR COALFIELD: HAZARIBAGH

- Introduction
- Environmental aspects of coal mining
- Land degradation
- Rehabilitation of mine sites
- Survey of the study area and findings
- Control measures
- SKCF Area
- Impact of coal mining on water resource
- Impact of coal mining on forest resource
- Impact of coal mining on land resource

CHAPTER VII

SUMMARY AND CONCLUSIONS
- Environmental aspects
- Potential for environmental improvements
- Suggestions

APPENDICES

BIBLIOGRAPHY
