

LIST OF TABLES

Table 3.8.1	Summary statistics	58
Table 3.8.2	Unit root test on returns on various portfolios	62
Table 3.8.3	Monthly regressions of stock returns on Beta, ME, BE/ME EPS/P, EPS/P neg, lnME and lnB/M	64
Table 3.8.4	Regression of excess returns to portfolios formed on the basis of BE/ME criteria on the Fama and French factor portfolios	66
Table 3.8.5	Regression of excess returns to portfolios formed on the basis of EPS/P ranking on the Fama and French factor portfolios	70
Table 3.8.6	A multivariate approach to category-wise regression of excess returns on the Fama and French factor portfolios	75
Table 4.1	Unit root test on $\ln P_t$ series	107
Table 4.2	Unit root test on $\ln BM$ series	108
Table 4.3	Unit root test on $\ln MV$ series	109
Table 4.4	Unit root test on $\ln \beta$ series	110
Table 4.5	Unit root test on $\ln \beta$ negative series	111
Table 4.6	Breusch-Godfrey serial correlation test	113
Table 4.7	Regression on $\ln P_t$ on $\ln P_{t-1}$, $\ln P_{t-2}$, $\ln BM$, $\ln MV$, $\ln \beta$ and $\ln \beta$ negative	115
Table 4.8	Wald test of the behavioral inertia model	125
Table 4.9	A dynamic, in-sample forecast of the Fama and French model	128
Table 4.10	A dynamic, in-sample forecast of the behavioral inertia model	130
Table 5.1	p values of the Breusch-Godfrey test	169
Table 5.2	p values of the wald test	172
