**List of Tables**

**List of Figures**

**List of Maps**

1. **Introduction**
   - 1.1 Political Ecology of Disease
   - 1.2 Tuberculosis in India
   - 1.3 Aims and objectives
   - 1.4 Research Questions
   - 1.5 Methodology
   - 1.6 Limitations in the adopted methodology
   - 1.7 Organisation of chapters

2. **Theoretical framework of Political Ecology of Disease**
   - 2.1 Introduction
   - 2.2 Various Conceptions of Disease and Health: Changing Paradigms
     - 2.2.1 Ecological Conception
     - 2.2.2 Bio-medical Tradition
     - 2.2.3 Epidemiological Perspective
     - 2.2.4 Public Health Dimension
   - 2.3 Contesting domains
     - 2.3.1 Ecological Approach
     - 2.3.2 Political Economy Approach
   - 2.4 Two Major trends in Methodology
   - 2.5 Emergence of an Alternative Approach
   - 2.6 Political Ecology Approach
   - 2.7 Conclusions

3. **Disease Ecology in India: Historical and Contemporary Perspective**
   - 3.1 Introduction
   - 3.2 Diseases in Indian History
     - 3.2.1 Disease in India
   - 3.3 Conception of Tuberculosis in Indian History
     - 3.3.1 Tuberculosis in Indian Medical Traditions
     - 3.3.2 Climate and Tuberculosis
     - 3.3.3 Tuberculosis as Contagious Disease
   - 3.4 Pattern of Tuberculosis in India
     - 3.4.1 Spatial Distribution
   - 3.5 Combat of Tuberculosis
   - 3.6 Conclusions
4. Pattern of prevalence of Tuberculosis in India
   4.1 Introduction
   4.2 Pattern of Tuberculosis in India
   4.3 Limitations in NFHS Data and the adopted methodology
   4.4 Incidence of disease in various States
   4.5 Incidence across the ecological zones
   4.6 Correlates of the disease
   4.7 Treatment Seeking Behaviour
   4.8 Tuberculosis Control Services
   4.9 Conclusions

5. Pattern of prevalence of Tuberculosis in India
   5.1 Introduction
   5.2 Method of Sample collection
   5.3 Socio-economic profile of the sample
   5.4 Symptoms among the Tuberculosis Patients
   5.5 Disease history and its correlates
   5.6 Family History of the Tuberculosis Patients
   5.7 History of the Tuberculosis Patients and their Psychology
   5.8 Treatment seeking behaviour
   5.9 Perception of the Patients about Illness and Treatment
   5.10 Conclusions

6. Conclusions

7. Bibliography
