

LIST OF TABLES

TITLE	PAGE No.
2.1 Calibration curve of Tizanidine Hydrochloride.	60
2.2 Rf values of Tizanidine Hydrochloride.	62
2.3 Hygroscopicity of drug at room and accelerated condition.	65
2.4 Solubility in Different solvent.	67
2.5 Particle size Distribution of Tizanidine Hydrochloride	69
2.6 Bulk density of drug powder	71
2.7 Tapped density of drug powder.	71
2.8 Rf values of drug and excipients mixtures at room temperature and at 40 ^o c/75%RH.	74
3.1 Formulation Optimization	81
3.2 Drug Incorporation efficiency	83
3.3 Mean Particle Size of prepared microspheres.	85
3.4 Degree of Swelling of prepared microspheres.	87
3.5 In vitro Bioadhesion Test	88
3.6 Micrometrics Properties of prepared microspheres	89
3.7 In vitro release profile of Batch A1.	92
3.8 In vitro release profile of Batch A2	93
3.9 In vitro release profile of Batch A3	94
3.10 In vitro release profile of Batch A4.	95
3.11 In vitro release profile of Batch P1	96
3.12 In vitro release profile of Batch P2	97

3.13 In vitro release profile of Batch P3	98
4.1 In vitro release profile of Batch A3R1	99
4.2 In vitro release profile of Batch A3R2	100
4.3 In vitro release profile of Batch A3G1	101
4.4 In vitro release profile of Batch A3G2	102
4.5 In vitro release profile of Batch A3EP1	103
4.6 In vitro release profile of Batch A3EP2	104
4.7 In vitro release profile of Batch A3EP3	105
4.8 In vitro release profile of Batch A3DOSS1	106
4.9 In vitro release profile of Batch A3DOSS2	107
4.10 Degradation of Tizanidine HCl at 40°C ±2°C/75% RH ±5%	108
4.11 In vitro bioadhesion test of batch A3	111
4.12 Micrometrics properties of batch A3	111
4.13 In vitro permeation study of Batch A3	111
