CHAPTER 1

Introduction to the chemistry of C-1 and C-2 branched glycals

Abstract

1.1. Carbohydrates

1.2. C-1-branched sugars

1.3. C-2 branched sugars

1.3.1. Synthesis of 2-C-formyl glycals

1.4. Synthetic applications of 2-C-formyl glycals

1.5. Synthetic applications of 2-C-hydroxymethyl glycals

1.6. Synthesis of C-2, C-3, C-4 and C-5 branched sugars

1.7. References
CHAPTER 2

Stereoselective Synthesis of C-2-Methylene and C-2-Methyl-C-Glycosides by Claisen Rearrangement of 2-Vinylloxymethyl Glycal

Abstract

2.1. Introduction 48
2.2. Results and discussion 50
  2.2.1. Synthesis of C-glycosides from 2-vinylloxymethyl glucal 54
  2.2.2. Plausible mechanism for the formation of C-glycosides 54
  2.2.3. Stereochemical assignment of C-2-methylene-C-glycosides 56
  2.2.4. Synthesis of C-2-methyl-C-glycosides 59
  2.2.5. Stereochemical assignment of C-2-methyl-C-glycosides 59
2.3. Summary and conclusion 60
2.4. Experimental section 61
  2.4.1. Materials and methods 61
  2.4.2. General experimental procedures and spectral data 61
2.5. References 84
2.6. NMR spectra 87
CHAPTER 3

Stereoselective synthesis of C-2-methylene and C-2-methyl α- and β-C-glycosides from 2-C-branched glycals: Formal total synthesis of (−)-brevisamide

Abstract

3.1. Introduction

3.2. Results and discussion

3.2.1. Synthesis of deoxy-glycals

3.2.2. Synthesis of C-glycosides from 3-deoxy derived 2-vinyloxymethyl glucal

3.2.3. Stereochemical assignment of C-2-methylene-C-glycosides

3.2.4. Epimerization of α-C-glycosides to β-C-glycosides

3.2.5. Synthesis of C-2-methyl-C-glycosides

3.2.6. Stereochemical assignment of C-2-methyl-C-glycosides

3.2.7. Application of the developed methodology towards the total synthesis of (−)-brevisamide

3.3. Summary and conclusion

3.4. Experimental section

3.4.1. Materials and methods

3.4.2. Experimental procedures and spectral data

3.5. References

3.6. NMR spectra
CHAPTER 4

Stereoselective synthesis of octahydro pyrano[3,2-b]pyrroles as novel glycosidase inhibitors

Abstract
4.1. Introduction
4.2. Results and discussion
   4.2.1. Synthesis of glycal derived octahydro pyrano[3,2-b]pyrroles
4.3. conclusion
4.4. Experimental section
   4.4.1. Materials and methods
   4.4.2. Experimental procedures and spectral data
4.5. References
4.6. NMR spectra
