ACKNOWLEDGEMENT

I express my deep sense of gratitude to my supervisor, Prof. Jayashree Rout, Department of Ecology and Environmental Science for her valuable guidance, constructive ideas, consistent support and kind supervision throughout the course of this research work. Her wide knowledge and logical way of thinking have been a great value for me. Her understanding, encouraging and personal guidance have provided a good basis for the present thesis.

I would like to convey my sincere thanks to Prof. Dulal Chandra Ray, Head, Department of Ecology and Environmental Science, Assam University, Silchar for creating a congenial and conductive environment and providing laboratory facility during the work.

I would like to express my sincere gratitude to Prof. Biman Kumar Dutta, Dean, School of Environmental Science, Assam University, Silchar for his encouragement and enthusiastic cooperation.

I would also like to convey my gratitude to Prof. Ashesh Kumar Das, Department of Ecology and Environmental Science, Assam University, Silchar for his continuous support and help during my research tenure.

I extend my sincere gratitude to all the faculty members and non-teaching staffs of the Department for their active enthusiastic cooperation and precious suggestions.

I owe my sincere gratitude to Prof. C.R. Bhattacharjee, Department of Chemistry, Assam University, Silchar for enlighting me with the knowledge of Nanoscience in my research work. His advice, help, support and simple way of explanation made my work easier during my research tenure which is highly precious in my entire career. I sincerely thank Abhijit Nath for
his help and contribution in nanomaterial work. I would like to express my sincere thanks and gratitude to Dr. Nripendranath. Mandal and his research group at Bose Institute Kolkata for collaborative research on antioxidant properties. I am thankful to Dr M.R. Suseela, NBRI, Lukhnow for her help and encouragement. I am particularly indebted to Prof. Ganesh R. Hegde from Karnatak University for providing useful information and help.

I am also grateful to Dr. Dibyajyoti Bhattacharjee and Hemanta Saikia, Department of MBA, Assam University, Silchar for providing help in statistical analysis.

I would like to express my heartfelt thanks specially to Dharitri Borah, my labmate for her untiring effort during my whole Ph.D research work in all possible ways.

I am also grateful to my senior labmates Dr. Albert Sajem and Dr. Jibenda Dutta for their kind support. I would also like to thank all my labmates Bhaswati, Shoubhonik, Amalina, Lohit, Meena, Banasree, Pompi, Nandakumar, Sanayaima, Thajamanbi, Bidyalaxmi, Bijyalkshmi and other research scholars, Manisha, Kakoli and Nepolian for their help, cooperation and moral support. I would also like to thank Joy Kumar Karmakar for his sincere assistance during my field and laboratory work.

My deepest gratitude goes to my family for their love, continuous encouragement and support. I am greatly thankful to my brothers Swarup Deb and Shibaji Deb for their continuous inspirations and bearing every pain for providing me the mental and financial support during my research work and standing always with me.

I owe my gratitude also to my Mother-in-Law Niyati Rani Dey and my Brother-in-Law Abhijit Dey for their continuous support and fun loving environment which made me work peacefully.
