

# CONTENTS

	<b>PAGE No.</b>	
<b>I</b>	<b>General Introduction</b>	
<b>II</b>	<b>Micropropagation</b>	
	2.1. Introduction	
	2.2. Materials and Methods	
	2.3. Results and Discussion	
	2.4. Conclusion	
<b>III</b>	<b>Organogenesis</b>	
	3.1. Introduction	
	3.2. Materials and Methods	
	3.3. Results and Discussion	
	3.4. Conclusion	
<b>IV</b>	<b>Somatic Embryogenesis</b>	
	4.1. Introduction	
	4.2. Materials and Methods	
	4.3. Results and Discussion	
	4.4. Conclusion	
<b>V</b>	<b>Genetic transformation of <i>Tricosanthes cucumerina</i> using GUS Gene</b>	
	5.1. Introduction	
	5.2. Materials and Methods	
	5.3. Results and Discussion	
	5.4. Conclusion	

## **VI Genetic Transformation Studies using *Theobroma cacao* Chitinase Gene**

- 6.1. Introduction
- 6.2. Materials and Methods
- 6.3. Results and Discussion
- 6.4. Conclusion

### **Summary**

### **References**
