Acknowledgement

A study on “A Comparative Study of Some Socio-Economic and Demographic Factors Affecting Maternal Health Care Utilization: A Study of Major Cities of Gujarat”: A Statistical Analysis was undertaken with an objective of to analyse the socio-economic and demographic factors affecting maternal health care utilization. Many people helped me in all possible ways to complete this research work to whom I wish to express my gratitude.

First of all, I would like to express my heartfelt thankfulness to my Guide, in pursuing the selected topic in the right spirit. I am indebted to my guide Dr. Haresh B. Tank, Associate Professor, Statistics Department, Shri Sadgurudev Ranchhodasji Mahila Home Science College & Lt. M. J. Kundaliya English Med. Mahila Commerce College, Rajkot. The work would not have been successfully completed without his encouragement, guidance and constant support. He helped me a lot by providing me his collection of books and journals related to my topic, suggesting various sources of literature review. Apart from an able guide, he is a great human being too. His commitment, sincerity, honesty, dedication towards work, regularity and caring nature are other lessons to learn from him apart from the research guidance. In spite of his busy schedule, he always spared his valuable time for me to assess my work. I highly oblige and thank his sincerity. I really fall short of words to appreciate the meticulous care and enormous encouragement put in by him, whose deep insight, matchless expertise and continual support helped me to accomplish this herculean task. I am thankful to Hon. Vice Chancellor, Saurashtra University, Rajkot for giving me an opportunity to pursue the research.

I also would like to express my heartfelt thankfulness to Dr. G.C. Bhimani, Head & Professor, Statistics Department, Saurashtra University, Rajkot.

I am very much thankful to Dr. R.D. Patel, Professor & Head-Statistics Department, V.N.S.G. University, Surat, whose inspiration, encouragement this research work would never have been possible. I also would like to express my heartfelt thankfulness to Dr. Arti Rajyaguru, Professor & Reader, Statistics Department, V.N.S.G. University, Surat, without whose inspiration, moral support and timely help, the work could not have been possible.

I would like to express deep sense of gratitude to my friend Dr. Manish Raval, Professor, Rajkot for his valuable guidance and support.
My deepest gratitude and thankfulness are especially conveyed to my dearest parents Mr. Gordhan M. Khatri & Mrs. Pushpa G. Khatri for their ceaseless prayer for my success. My elder brother Mr. Nitin G. Khatri; without their support and encouragement this research work would never have been possible.

I take this opportunity to express my thanks to my wife Mrs. Meenakshi Khatri, without whose inspiration, moral support and timely help, the work could not have been possible. I express my warmest affection to her. I am beholden to the member of my family for their manifold sacrifices. How I can forget my son Kush & Dheer, this research work would never have been possible without their cooperation and love.

I am very much thankful to Mr. Deepak K. Vaidya (Director) SDJ International College, Vesu, Surat, whose inspiration, moral support and timely help, the work could not have been possible. I express my warmest affection to him.

I am thankful to Aditi Bhatt (Coordinator) SDJ International College, Vesu, Surat, who made it convenient for me by scheduling my regular work comfortably in college. I acknowledge with deep gratitude the valuable guidance, suggestions and comments on this research work from Dr. Sanjay Joshi who helped me, without whose much appreciated assistance since beginning of the doctoral program, my study objective could never been achieved. I sincerely express my thanks to colleagues Dr. Falguni Thakkar (Assistant Professor), Mr. Vaibhav Desai (Assistant Professor), Mr. Sanjay Bhatt (Librarian) SDJ International College, Vesu, Surat and those who had directly or indirectly helped me throughout during research work.

I would like to express my deep sense of gratitude towards medical officers who gave their valuable suggestions data collection. To Dr. M N Patel (Surat Municipal Corporation), Dr. Tushar Joshi (Vadodara Municipal Corporation), Dr. Bhavin Solanki (Ahmedabad Municipal Corporation), Dr. Manish B. Chauhan (Rajkot Municipal Corporation). I would like to express my profound appreciation for their considerable help, especially in collecting the data of research work.

Last but not least I would like to express my deep gratitude towards my best friends Dr. Rajesh Patel (BHMS). I am also thankful to Mr. Divyesh Solanki, Assistant Professor in Statistics, G.N. Pandya Commerce College, Surat.
