ACKNOWLEDGEMENT

The current study was completed in a short time period of six months which included primary survey and secondary analysis conducted in AGRA.

The same is happening with me when I am desperately searching for words to thank the almighty God for making me an instrument to write and prepare this project.

I am thankful to Dr. Swami Prakash and Prof. Laxmi Rani Kulshreshtha for providing me support and encouragement to make and present this project.

I would like to express my heartfelt gratitude to Mr. Vinod Kumar Jain for not just logistical support but also the valuable comments in the different stages of the study.

I would also like to specially thank to the customers and the bankers who help all along the dissertation was indispensable.

Finally thanks to Dr. Swami Prakash without his moral support this project could not have been a great success for me.
