

Acknowledgment

Words and lexicons can do full justice in expressing a deep sense of gratitude and indebtedness which flows from my heart towards my esteemed and learned teacher and supervisor Dr. Gopi Ahuja, Ph.D., D.Sc., Reader and head of department of mathematics, Feroze Gandhi College, Raebareli (C.S.J.M. University Kanpur). He had taken the risk on putting his faith in me, at the time when I was in lowest point of my professional carrier. What exactly influenced him to take responsibility of overseeing my dissertation, I shall never know, but I am indeed grateful that he did eventually make the decision, for without his support, I would be nowhere. I shall not be able to repay for all I gained from him.

I would like to thanks Dr. Kanhaiya Prasad (Ex. Head of department of mathematics of Feroze Gandhi college Raebareli) for his constructive criticism, invaluable suggestions and for motivation in doing research work. I would also say thanks to Mrs. Alka Shukla mam, my colleague and all the members in department of mathematics of Feroze Gandhi College Raebareli who have always encouraged me to continue my research work. I am also grateful to the principal of Feroze Gandhi College for enabling me to complete the work.

To the people who made me the person I am, my parents, I shall always be thankful. I can't forget the contribution of my sister and brother who made me happy so that I could complete the work. Finally I would also say thanks to Mr. Shashank Singh, who helped and supported

in writing my thesis. Without his help, I couldn't do it properly.

I am very grateful to the supreme power of God. Without his blessings I cannot proceed my research work. He made my way easy so that I could complete my thesis.

(Alka Singh)
