ACKNOWLEDGEMENT

I would like to express my gratitude and respect to my supervisor, Dr. M. R. Tripathi for his inspiring guidance and supervision throughout my Ph.D. work. His valuable suggestion, discussions and cooperation’s helped me in putting up this piece of work. I am greatly indebted to him for teaching me the basic skill in chemistry. I am also thankful to Mrs. Tripathi for providing a homely atmosphere, love, and affection at their residence.

I am also thankful to the department of chemistry, D.A.V-college Kanpur for providing me excellent facilities. I am also thankful to all the faculty member of chemistry department, D.A.V-college Kanpur.

I express my deep sense of gratitude to my father P.C. Gupta and mother Uma Gupta for their love, encouragement and support. The unbreakable patience, faith and enormous support of my father is always a constant source of inspiration for me. I take this opportunity to thank my younger sister Aishwarya, whose love and affection provide me courage and stamina to work. I would like to thank my brother Dr. Akhilesh Gupta and my bhabhi Rachna Gupta, whose love inspiration and advice provided me strength to overcome the days of failure and to work harder to reach the goal.

(Divya Gupta)
