ACKNOWLEDGEMENT

First and above all, I praise God, the almighty for providing me this opportunity and granting me the capability to proceed successfully. This thesis appears in its current form due to the guidance, motivation and invaluable help of several people. I would therefore like to offer my sincere thanks to all of them.

I sincerely express my deep sense of everlasting profound gratitude to my research guide, Dr. (Smt.) S. C. P. Halakatti, Associate Professor, Department of Mathematics, Karnatak University Dharwad, for her inspiring guidance, sustained interest, constant encouragement, invaluable discussions, moral support, suggestions and motivation through the course of my work without which the work would not have been completed. Under her guidance I successfully overcame many difficulties and learned a lot. I am indebted to her for keen interest in my academic and personal welfare, which is instrumental in accomplishing this task. I am also grateful to her for providing me the necessary facilities at the department.

I am grateful to the Chairman and Professor, Dr. B. Basavanagoud, Department of Mathematics, Karnatak University Dharwad, for providing all the necessary academic and administrative facilities in the department. Also my special thanks to Prof. H. S. Ramane, Prof. P. M. Patil, Dr. P. G. Patil, Dr. S. C. Shiralashetti, Dr. D. G. Prakasha, Dr. (Smt.) R. S. Dyavanal, Dr. Asha S. K., Mr. Kumbinarasaiah S., Dr. Keerthi G. Mirajkar, and Dr. K. S. L. N. Prasad, for their guidance and encouragement during the course of my research work. I am also grateful to the library staff and the office staff.
