Acknowledgement

First and foremost, with great pleasure and immense satisfaction, I would like to express my deep sense of gratitude and indebtedness to my supervising teachers Prof. (Dr.) Sabu Thomas, School of Chemical Sciences, Mahatma Gandhi University, Kottayam, and Dr. George Mathew, Retired Professor, Department of Chemistry, S. B. College Changanacherry for kindly suggesting the topic for my research work and also for their invaluable guidance, fruitful suggestions, motivation and encouragement during the research programme for the past seven years.

I extend my sincere thanks to Prof. T. J. Abraham, the former head and all other staff of the Department of Chemistry, S. B. College, Changanacherry for giving me the laboratory facilities and inestimable encouragement to pursue the research work. I remember with thanks Dr. M. Padmanabhan, Former Director, School of Chemical Sciences, Mahatma Gandhi University and I thank Dr. P. K. Radhakrishnan, Director, School of Chemical Sciences, Mahatma Gandhi University for allowing me to conduct the experiments at School of Chemical Sciences.

I am very much thankful to the Principal and staff of Assumption College, Changanacherry for their constant encouragement to complete this research work. I express my sincere thanks to Mr. Satyaraj and Dr. Muralidharan Nair, CFSC, Changanacherry for extending the laboratory facilities for my research work. I am sincerely thankful to Dr. K.T. Thomas, Deputy Director, Rubber Research Institute of India, Kottayam, for providing the laboratory facilities at RRRI, Kottayam and to Dr. Siby Varghese, Scientist, for his helpful suggestions and comments.

I gratefully acknowledge Dr. Aby Santhosh Aprem, Manager Hindustan Latex for the valuable suggestions for the modification of the Thesis. I am very much indebted to Mr. Manoj K. Cherian, Engineer, ISRO, Thiruvananthapuram and
Dr. M. R. Gopinathan Nair, Reader, School of Chemical Sciences, Mahatma Gandhi University for their valuable advices during the course of this investigation. The involvement of good research scholars as group mates has been really a great benefaction in bringing out this work. I consider myself immensely fortunate in that respect.

I would like to pen a word of immense gratitude for the wholehearted co-operation and encouragement extended by Dr. Seno Jose, Cibi Komalan, Dr. Maya Jacob, and Aju. I also appreciate the help rendered by my other fellow research scholars and colleagues.

I express my sincere thanks to Bijumon, Shijo, Sholly and the University Library staff for their help during my research programme.

I consider it my privilege to express my great indebtedness to my family - my beloved husband, Dr. E. J. Mathew and my children George E. Mathew, Jose E. Mathew and Ann Mary Mathew. The infinite patience and endurance shown by them during this period was really commendable. I wish to thank the University Grants Commission for the award of two years Teacher Fellowship for the completion of the research work.

I record my sincere gratitude to M/s Minitek Computers, Athirampuzha for the neat preparation of the Thesis.

Above all I bow my head in profound gratitude before the Lord Almighty for showering on me all the blessings and for giving me the strength and courage to complete this work.

Marykutty C. V.
