

Acknowledgement

I would like to express my profound gratitude to my supervising teacher, Dr. C. T. Aravindakumar, Reader, School of Chemical Sciences, Mahatma Gandhi University, for his constructive suggestions, constant encouragement and timely support. His valuable experience, scholarly advice and practical approaches have indeed been an inspiration for me.

I would like to thank Prof. P. K. Radhakrishnan, Director, School of Chemical Sciences, for providing me necessary facility for doing my research work. My sincere thanks are due to all the faculty members, office staff and the technical staff of SCS. I am deeply indebted to Dr. Usha. K. Aravind, Principal investigator, DST, woman scientist program, for her valuable suggestions and timely help throughout my work.

I am grateful to the University Grants Commission for the financial assistance given during my research period. I am indebted to the manager of Assumption College, Changanacherry, for sanctioning me necessary leave for doing Ph. D under the FIP X plan of UGC. I express my gratitude to Dr. Sr. Suma Rose, Principal, Assumption College Changanacherry, for her valuable support and prayers. I am thankful to Prof. Rose Mary Thomas, Head of the Department of Chemistry and all my colleagues in the Department of Chemistry and Assumption College for their constant encouragement.

I express my sense of gratitude to all my lab mates. As always, they gave unselfishly of their time, energies and competence. Without their generous help and support I could not have finished this work.

I am very much thankful to my parents, all my family members and relatives for their constant support and encouragement. My husband Jacob and children Catherine and Sebastian deserve special thanks for their warmth, enthusiasm, patience and understanding.

A special acknowledgement is due Ms/Minitex computers for making this manuscript in the present form.

Above all, I bow before my Lord, Who guides me and strengthens me throughout my life.
