Acknowledgement

I express my profound debt of gratitude to my supervising teachers Dr. G.D. Gem Mathew, St. Thomas College, Pala, Prof. (Dr.) Sabu Thomas, School of Chemical Sciences, Mahatma Gandhi University, Prof. (Dr.) Kuruvilla Joseph, Indian Institute of Space Science and Technology, Thiruvananthapuram and Dr. Laly A. Pothan, Bishop Moore College, Mavelikara for their invaluable guidance, motivation and encouragement during the entire course of my research work. I express my deep sense of gratitude to Dr. K.T. Varughese, Joint Director, Central Power Research Institute for his valuable suggestions during my Thesis work.

I am extremely thankful to the Manager of Bishop Moore College, the Principal (Prof. Koshy Ninan), HOD of Chemistry (Prof. C. Abraham), Dr. Kurien Thomas, other faculty members of the Department of Chemistry and all other teaching and non teaching staff of Bishop Moore College, Mavelikara for their valuable support. I also acknowledge the service rendered by the Principal and other faculty members of St. Thomas College, Pala.

Thanks are due to the University Grants Commission, whose Faculty Improvement Programme had made it possible for me to take time off from my regular academic work and devote full attention to this academic pursuit.

I deeply appreciate the invaluable support, encouragement, suggestions and help rendered to me by Prof. (Dr) Gunter Mennig, Institute of Mechanical and Plastics Technology, Chemnitz University of Technology, Chemnitz, Germany, during my research stay in Germany under DST/DAAD research programme. I am thankful to Dr. Charlie Oommen, Department of Aerospace Engineering, Indian Institute of Science, Bangalore, Stefan Spange, Chemnitz Institute of Technology, Chemnitz, Germany, Cornelia Bellmann, Leibniz Institute of Polymer Research, Dresden, Germany, Abderrahim Bouden, Universite Paris 12 Val de Marne, France, Tibor Czigány, Department of Polymer Engineering, Budapest University of Technology and Economics, Hungary and Prof. (Dr.) S. K. Malhotra, Head, Composites Technology Centre, IIT, Chennai for carrying out some of the experiments in their laboratories.
I am also thankful to the Director, the faculty members and all others at School of Chemical Sciences for their support during the Ph. D programme. Discussions and help from Dr. Manikantan Nair is gratefully acknowledged.

My sincere thanks to my dear friends Anu, Jesmi, Meera, Indose, Jyothish, Aju, Selvin, Visak, Ajesh, Bibin, Eldho, Deepa, Resmi, smitha, Uma teacher, Maries Teacher, Indira teacher, Viju teacher, Shaji sir, Tomlal sir, Raju sir, P. C. Thomas sir, Dr. Bindu and all others at School of Chemical Sciences for their valuable and unselfish support during the Ph. D programme. Many thanks to Shijo and sholly for lab and computer assistance. I also express my thanks to M.G. University Library staff, in particular the valuable help from Mr. Raju Varghese is gratefully acknowledged.

Finally, I owe my deep sense of gratitude to my beloved Parents whose prayers, affection, encouragement, inspiration, patience and support smoothly paved my path towards the successful completion of this research work. Special thanks to my beloved husband Sunny daughters Silu and Neenu, sisters Sheela and sheeba, brother Shibu, co-brother Benny and sister-in-law Alka for their unstinting love, support, cooperation and prayers without which I would not have been able to complete this work.

Thanks are due to Shibu K. V. and Unni, Minitek Computers for their valuable help in finalizing the thesis.

Thank you all. Shereely Annie Paul
