Acknowledgement

I am deeply indebted to my guide Dr. K. K. Janardhanan, Professor, Amala Cancer Research Centre, Thrissur, for his ever valuable guidance, constant encouragement and support, which enabled me to complete this thesis. I am especially thankful to him for providing an excellent working environment and inducing the confidence to address this topic. Without his guidance and support, this thesis would not have materialized.

I am particularly grateful to Dr. Ramadasan Kuttan, Director, Amala Cancer Research Centre, Thrissur, for the support and encouragement during the course of my work. I am thankful to Rev.Fr. Pius, former Managing Director and Fr. (Dr.) Paul Achandi, Managing Director, Amala Cancer Hospital & Research Centre, Thrissur, for permitting me to do research at this reputed centre. I sincerely acknowledge Dr. Girija Kuttan, Dr. Jose Padikkala and Dr. CKK Nair, Professors of Amala Cancer Research Centre, Thrissur for the valuable advice and support.

I express my sincere gratitude to Dr. D. Karunagaran, former Scientist, Rajiv Gandhi Centre for Biotechnology, Thiruvananthapuram (Present address: Professor, Department of Biotechnology, Indian Institute of Technology Madras, Chennai) for giving me an opportunity to work in the Cancer Biology Laboratory of RGCB. I have benefited from several discussions with him and I am very much thankful for his encouragement and guidance. Special thanks to Dr. R. Aanandan, Senior Scientist, Central Institute of Fisheries Technology, Cochin for kindly providing the technical help.

My heartfelt thanks to my dearest friends Dr. Nitha B., Dr. Preethi, Mr. Mathew John, Ms. Smina T.P., Ms. Jini and Mr. Rony for their invaluable scientific and personal support during the study. I am also thankful to my seniors especially, Dr. T.A. Ajith, Dr. Lakshmi B., Dr. Nayana Jose and Dr. Sheena Nair for their advice and support. I take this opportunity to express my gratitude to all my friends, colleagues and staff members of Amala Cancer Research Centre,
Thrissur for the moral support and encouragement. Special thanks to Mr. Mani Shankar Babu, Senior Research Fellow, RGCB, Thiruvananthapuram, for the technical help during the human cancer cell line experiments.

I am deeply indebted to my parents, brother and sister, who have done so much and have always been a source of inspiration. They gave me unconditional love and support throughout my life and have enabled me to achieve this goal. No words to express my heartfelt thanks to my dear husband and son for their immense love and untiring support throughout the study. They have been my pillar of strength in times of need and without their support; I could not have finished my thesis in time.

Least but not last, I thank each and every person who had directly or indirectly helped me to complete this thesis in time.

I thank GOD Almighty for all HIS blessing throughout my life that enabled me to fulfill this endeavour.
