LIST OF FIGURES

Figure 1.1: Variants of the classic life cycle models 17
Figure 2.1: Psychographic positions of destinations by Plog in 1973 31
Figure 3.1: Study area of Kovalam and Thekkady 96
Figure 3.2: Typical Lorenz Curve showing seasonal concentration of tourist arrivals 126
Figure 4.1: Pattern of changes in seasonal indices with respect to foreign tourist arrival in Kerala 145
Figure 4.2: The scatter plot of de-seasonalised tourist arrivals and the polynomial curve showing the foreign tourist arrival pattern in Kerala 146
Figure 4.3: Pattern of changes in expenditure per tourist 149
Figure 4.4: Net earnings at constant prices 151
Figure 4.5: Indices of growth in tourist arrivals from world tourism markets 152
Figure 4.6: States that have managed to increase the market share 155
Figure 4.7: States that experience a decrease in the market share 155
Figure 4.8: Pattern of changes in seasonal indices with respect to foreign tourist arrivals in Kovalam 162
Figure 4.9: Scatter plot of de-seasonalised tourist arrivals and the polynomial curve showing the foreign tourist arrival pattern at Kovalam 165
Figure 4.10: Pattern of changes in seasonal indices with respect to foreign tourist arrivals in Thekkady 175
Figure 4.11: Scatter plot of de-seasonalised tourist arrivals and the polynomial curve showing the foreign tourist arrival pattern at Thekkady 176
Figure 5.1: Visual model of influencing factors - Kovalam 240
Figure 5.3: Visual model of influencing factors – Thekkady 241
