INDEX

A
Aim of study 100
Areas of social work intervention 88, 153, 158, 164, 169, 174, 179, 190, 195, 204, 209, 214, 222
Assessment 88

C
Cancer as a family diagnosis 28
Cancer as a fatal diagnosis 28
Cancer as terminal illness 5, 28
Cancer associated health problems 16
Cancer control 15
Cancer danger signal 14
Cancer is a chronic illness 28
Cancer statistics 8
Cancer treatment 31
Case studies 156
Concept of a cancer patient as a person 20
Conclusion 36, 83, 117, 183, 232, 262, 281
Coping support 58, 136, 247
Criteria of selection 106

D
Definitions 102
Definitions of concept 102
Dependent and independent variable 105
Depression 71, 91, 249
Index

E
Ethical issues 117
External factors causing cancer 6

F
Family burden 50, 90, 127, 243
Findings 76
Function of oncology social worker 34
Future directions 259

H
Hypothesis 101
Hypothesis verification 253
Implication of the study 255

I
Incidences of cancer cases 10
Informers consent 116
Initial interview 116

L
Limitations of the study 275

M
Major findings 264
Index

Mental health 17
Merits of the study 274
Methods and tool of data collection 108

O
Objectives 101
Observation 253

P
Physiological health 16
Pilot study 103
Population 106
Possible causes for cancer 5
Procedure 115
Professional intervention 29
Psycho-social factors involved in the disease 18
Psychological factors 19
Psycho-social impact of terminally ill cancer patients 28
Psycho-social problems 62
Psycho-somatic model 22

R
Recommendations of the study 267
Research design 96

S
Salient features of cancer incidence 13
Sampling technique 106
Scope of study 98
Social factors 18
Social support 52, 92, 133, 246
Social work intervention methods 260
Sociodemographic 46, 120, 238
Source of data 109
Specific socialwork roles 268
Statement of problem 97
Statistical analysis 116
Suggestions for future research 276

T
Ten leading sites of cancer 14
Terminal illness 3
The american cancer society 4
The factors inducing hope in terminally ill 27
Type of cancer 111, 112, 113,

U
Universe 105
