LIST OF TABLES

Table No. 1: Main Values and Sub values 198

Table. 2 : Categories and weightages of different components of socio-economic status scale related to appendix II- Form A denoted by corresponding code Letters and code numbers. 208

Table No. 3 : Breakup of positive and negative statements in form ‘B’ Appendix II. 211

Table No. 4 : Break up of positive statements with respect to main values and sub values as per form ‘B’ Appendix II. 212

Table 5 : Break up of negative statements with respect to main values and sub values as per form B Appendix II. 213

Table No. 6 : Break up of positive and negative statement in form ‘C’ (Appendix II). 215

Table No. 7 : Break up of positive statements with respect to main values and sub values as per form – ‘C’ (Appendix II). 216

Table 8 : Break up negative statements with respect to main values and sub values as per form ‘C’, Appendix II. 217

Table No. 9 : Reliability and validity coefficients of the rating scale Form B 221

Table No.10 : Reliability and validity coefficients of the rating scale form-C 222

Table No. 11 : Details of fourteen Higher Secondary Schools of random selection in accordance with the multi stage sampling 224-225

Table 12 : Type of management of school 226

Table. 13 : Gender 227

Table 14 : Religion 227

Table. 15 : Area of residence 228

Table 16 : Socio economic status 228

Table No. 17 : CBSE Curriculum and personality development of Adolescents in the moral, social and spiritual domains 256

Table No. 18 : Evolving trend in the development of values among the adolescent students. 265

Table No.19 : Responses of students on the effective inculcation of the values. 271

Table No.20. : Allotment of periods for general studies 274

Table No. 21 : Compliance to the curriculum for value orientation. 275

Table No 22. : Dependence of students on books or publications recommended by CBSE, for value orientation 277

Table No.23 : Reference of NCERT books on value education. 278
Table No. 24 : Response on the need for an evaluation of value orientation at higher secondary level

Table No. 25 : Response on the type of evaluation of the value orientation in classes.

Table No. 26 : Response on who should do the internal evaluation.

Table No. 27 : Usage of tools for the sociometric evaluation of values among the students.

Table No. 28 : Response on keeping reflection sheets for each student.

Table No. 29 : Response on maintenance of personality chart of students. Table No. 30 : Response on time of preparation of grades of students in general studies.

Table No. 31 : Response on allotment and reporting of ‘E’ grade for the internal assessment.

Table No. 32 : Response on with holding of the result due to ‘E’ grade in internal assessment.

Table No. 33 : Response on inspection by CBSE regarding internal assessment scores of students in higher secondary.

Table No. 34 : Response on periodicity of CBSE inspections.

Table No. 35 : Response on the usage of CBSE hand book for value education.

Table 36 : S.D., C.V., and mean Value assessment scores of Social, Moral, and spiritual values of independent schools.

Table No. 37 : Ranking among the subvalues of adolescents studying for senior higher secondary classes of the independent schools.

Table No. 38 : S.D., C.V and Mean value assessment scores of moral social and spiritual values of ‘Kendriya Vidyalaya Schools’ in rank order.

Table No. 39 : Ranking among the nine sub values of adolescents studying for senior higher secondary classes of the ‘Kendriya Vidyalaya Schools’.

Table No. 40 : S.D., C.V and Mean value assessment scores of moral social and spiritual values of Jawahar Navodaya Vidyalaya School in rank order.

Table No. 41 : Ranking among nine sub values of adolescents studying for senior higher secondary classes of Jawahar Navodaya Vidyalaya Schools.

Table No. 42 : Comparison of Mean, S.D., C.V, ‘z’ Value and finding the level of significance of moral value scores of adolescents with respect to type of management of schools.

Table No. 43 : Comparison of mean S.D., C.V ‘z’ value and the level of significance of social value scores of adolescents with respect to type of management of schools.
Table No. 44: Comparison of mean, S.D, C.V, 'z' value and the level of significance of 'spiritual' value scores of adolescents with respect to type of management of schools.

Table No. 45: S.D, C.V and Mean value assessment scores of moral, social and spiritual values of adolescent 'boys' in rank order.

Table No. 46: Ranking among the nine sub values of adolescent males studying for the senior higher secondary classes.

Table No. 47: S.D.C.V and mean value assessment scores of moral, social and spiritual values of adolescent 'girls' in rank order.

Table No. 48: Ranking among the nine sub values of adolescent females studying for senior higher secondary classes.

Table No. 49: Comparisons of the mean, S.D, C.V, 'z' value and the level of significance of 'moral' value scores of adolescents with respect to their 'gender'.

Table No. 50: Comparison of the Mean, S.D, C.V, 'z' value and the level of significance of 'social' value scores of the adolescents with respect to their gender

Table No. 51: Comparison of the mean, S.D, C.V, 'z' value and the level of significance of 'spiritual' value scores of adolescents with respect to their gender.

Table No. 52: S.D,C.V and mean value assessment scores of moral, social and spiritual values of adolescent 'Hindu' students with respect to the rank order.

Table No. 53: Ranking among the nine sub values of adolescent 'Hindus' studying for senior higher secondary classes.

Table No. 54: S.D,C.V and mean value assessment scores of moral, social and spiritual values of 'Muslims' with respect to the rank order.

Table No. 55: Ranking among nine sub values of adolescent Muslims studying for senior higher secondary classes.

Table No. 56: S.D,C.V and mean value assessment scores of moral social and spiritual values of adolescent 'Christian' students with respect to rank order.

Table No. 57: Ranking among the nine sub values of adolescent 'Christians' studying for senior higher secondary classes.

Table No. 58: S.D, C.V and mean value assessment scores of moral, social and spiritual values of all 'other religions' with respect to rank order.
Table No. 59 : Ranking among the sub values of adolescents of ‘all other religion’ studying for higher secondary classes.

Table No. 60 : Comparison of mean, S.D, C.V 'z' value and the level of significance of moral value scores of adolescents with respect to their religion.

Table No. 61 : Comparison of the mean, S.D, C.V, 'z' value and the level of significance of social value scores of adolescents with respect to their religion.

Table No. 62 : Comparison of mean, S.D, C.V 'z' value and finding the level of significance of spiritual value scores of adolescents with respect to their religion.

Table No. 63 : S.D, C.V and mean value assessment scores of social, moral and spiritual values of residents of 'panchayath' area in rank order.

Table No. 64 : Ranking among the sub values of adolescent of ‘panchayath’ area, studying for higher secondary classes.

Table No. 65 : S.D, C.V and mean value assessment scores of moral social, and spiritual values of 'municipalities' in rank order.

Table No. 66 : Ranks among the sub values of adolescents residing in municipal areas, studying for their higher secondary classes.

Table No. 67 : S.D, C.V and mean value assessment scores of moral social and spiritual values of residents of 'corporation' area in rank order.

Table No. 68 : Ranking among the nine sub values of adolescents of 'corporation' areas studying for the higher secondary classes.

Table No. 69 : Comparison of the mean, S.D, C.V, 'z' value and finding the level of significance of moral value scores of adolescents with respect to their 'area of residence'.

Table No. 70 : Comparison of the mean, S.D, C.V , 'z' value and finding the level of significance of social value scores of adolescents with respect to their area of residence.

Table No. 71 : Comparison of mean, S.D, C.V, 'z' value and level of significance of 'spiritual' value scores of adolescents with respect to their area of residence.

Table No. 72 : Standard deviation, Coefficient of variation, and mean value assessment scores of moral, social and spiritual values of adolescents belonging to low socio-economic status in rank order. Table No.

Table No. 73 : Ranks among the sub values of adolescents of low socio-economic status studying for their higher secondary classes.
Table No. 74: Standard Deviation, Coefficient of Variation and mean value assessment scores of social, moral, and spiritual values of adolescents belonging to medium 'socio-economic status' in rank order.

Table No. 75: Ranking among the sub values of adolescent of medium socio-economic status, studying for the higher secondary classes.

Table No. 76: Standard Deviation, Coefficient of Variation and mean value assessment scores of moral, social and spiritual values of adolescents belonging to 'high socio economic status' in rank order.

Table No. 77: Ranking among the sub values of adolescents of high socio economic status studying in higher secondary classes.

Table No. 78: Comparison of the mean, S.D, C.V, 'Z' value and the level of significance of the moral value scores of the adolescents with respect to their 'socio economic status'.

Table No. 79: Comparison of the mean, S.D, C.V, 'Z' value and finding the level of significance of the 'social' value scores of adolescents with respect to their socio-economic status.

Table No. 80: Comparison of the mean, S.D, C.V 'Z' value and finding the level of significance of the 'spiritual' value scores of the adolescents with respect to their socio-economic status.
