

CONTENTS

CHAPTER 1

INTRODUCTION	01
1.1 REVIEW OF LITERATURE.....	05
1.2 GENESIS OF THE PROBLEM.....	11
1.3 THE SOURCE OF EFFLUENT FOR THE PRESENT STUDY.....	14
1.4 IMPORTANCE OF <i>CAPSICUM</i>	15
1.5 OBJECTIVES OF THE STUDY.....	18
REFERENCES.....	19

CHAPTER 2

MATERIALS AND METHODS.....	36
2.1 THE MATERIALS.....	36
2.2 THE METHODS.....	36
2.3 PARAMETERS SELECTED FOR THE STUDY.....	37
2.3.1 GERMINATION STUDIES.....	37
2.3.2 MORPHOLOGICAL STUDIES.....	38
2.3.3 CYTOLOGICAL STUDIES.....	39
2.3.4 QUANTITATIVE ANALYSIS.....	40
2.3.5 FOLIAR EPIDERMAL STUDIES.....	43
2.3.6 PHYTOMASS AND PRODUCTIVITY.....	43
2.3.8 SEM STUDY	44
2.3.9 POLLEN ACETOLYSIS.....	44
2.4 STATISTICAL ANALYSIS	45
REFERENCE.....	46

CHAPTER 3

OBSERVATIONS.....	47
3.1 PHYSICO-CHEMICAL CHARACTERISTICS OF THE EFFLUENT.....	47
3.2 MORPHOLOGICAL CHARACTERISTICS.....	49
3.3 BIOCHEMICAL PARAMETERS-PIGMENTS.....	81
3.4 TOTAL PROTEIN	90
3.5 TOTAL CARBOHYDRATE.....	94
3.6 CYTOLOGICAL STUDIES.....	97
3.7 POLLEN CHARACTERISTICS.....	106
3.8 SEM ANALYSIS.....	107

CHAPTER 4

DISCUSSION.....	121
4.1 PHYSICO-CHEMICAL EXAMINATION OF EFFLUENT.....	121
4.2 GERMINATION AND SEEDLING MORPHOLOGY.....	123
4.2.1 GERMINATION.....	123
4.2.2 LENGTH OF THE RADICLE AND PLUMULE....	129
4.2.3 VIGOUR INDEX.....	132
4.2.4 PHYTOTOXICITY.....	133
4.2.5 GROWTH, PHYTOMASS, PRODUCTIVITY AND YIELD.....	134
4.2.6 THE STOMATAL INDEX.....	139
4.2.7 BIOCHEMICAL PARAMETERS.....	140
4.2.8 CYTOLOGICAL STUDIES.....	147
4.2.9 POLLEN CHARACTERISTICS.....	153

4.2.10 LEAF AND SEED SURFACE

CHARACTERISTICS.....154

CHAPTER 5

CONCLUSION.....157

CHAPTER 6

SUMMARY.....160
