

LIST OF FIGURES

Figure 3-1: Amount of Biochemical Compounds (mg/gm)

Figure 3-2: Amount of Photosynthetic Pigments (mg/gm)

Figure 3-3: Amount of Aliphatic Amino Acids (in %)

Figure 3-4: Amount of Aromatic Amino Acids (in %)

Figure 3-5: Amount of Hydroxy Amino Acids (in %)

Figure 3-6: Amount of Amino Acids Methionine and Proline (in %)

Figure 3-7: Amount of Acidic Amino Acids (in %)

Figure 3-8: Amount of Basic Amino Acids (in %)

Figure 3-9: Quantitative Microscopy of Leaf (in mm²)

Figure 3-10: Amount of Total Phenolic Compounds (mg/gm)

Figure 3-11: Amount of Alkaloid (in % dry wt.)

Figure 3-12: Amount of Flavonoid (in % dry wt.)

Figure 3-13: Amount of Resin (in % dry wt.)

Figure 3-14: Amount of Tannin (in % dry wt.)

Figure 3-15: Amount of Saponin (in % dry wt.)

Figure 3-16: HPTLC Chromatogram of gallic acid (Standard)

Figure 3-17: HPTLC Chromatogram of *Petiveria alliacea* L. Extract showing gallic acid peak

Figure 3-18: HPTLC Chromatogram of *Rivina humilis* L. Extract showing gallic acid peak

Figure 3-19: HPTLC Chromatogram of Benzoic acid (Standard)

Figure 3-20: HPTLC Chromatogram of *Phytolacca octandra* L. Extract showing benzoic acid peak

Figure 3-21: HPTLC Chromatogram of *Petiveria alliacea* L. Extract showing benzoic acid peak

Figure 3-22: HPTLC Chromatogram of *Rivina humilis* L. Extract showing benzoic acid peak

Figure 3-23: HPTLC Chromatogram of Sterol (Standard)

Figure 3-24: HPTLC Chromatogram of *Petiveria alliacea* L. Extract showing sterol peak

Figure 3-25: HPTLC Chromatogram of *Rivina humilis* L. Extract showing sterol peak

Figure 3-26: Dendrogram Showing Genetic Distance of RAPD Data by Employing UPGMA Method
