</table>
Table 4.24  Details of concepts, areas of difficulties and suggested action for preparation of diagnostic test based on the chapter - Angles ................................. 116
Table 5.1  Classification of children into various categories .................. 150
Table 5.2  Details of monthly income of the parents of the disadvantaged children .......................................................... 153
Table 5.3  Details of social condition of the disadvantaged children (Maximum No. 726) ...................................................... 156
Table 5.4  Number of members in the family (726 families) ...................... 157
Table 5.5  Educational background of the family members (in percentage) ........................................................................ 158
Table 5.6  Mode of journey to school by the disadvantaged children (in percentage) .................................................... 159
Table 5.7  Areas selected for the study .................................................. 160
Table - 5.8  The percentage distribution of errors related with the pre requisites to learn Ratios committed by the experimental group .................................................. 172
Table 5.9  The percentage distribution of errors related with the pre-requisites to learn Ratios committed by the controlled group. ...................................................... 174
Table 5.10  The percentage distribution of errors related with the pre-requisites to learn Factors committed by the experimental group ................................. 176
Table 5.11  The percentage distribution of errors related with the pre-requisites to learn Factors committed by the control group ............................................... 176
Table 5.12  The percentage distribution of errors related with the pre-requisites to learn angles committed by the experimental group ........................................ 179
Table 5.13  The percentage distribution of errors related with the pre-requisites to learn angles committed by the control group ........................................... 180
Table - 5.14  Measures of central tendency and variability of pre-test scores of the students in the experimental and control groups. ............................................. 182
Table - 5.15  Measures of central tendency and variability for the post-test scores of experimental and control groups. .................. 184
Table - 5.16  Measures of central tendency & variability for gain scores of the experimental and control groups .......... 184
Table - 5.17 Data and Results of tests of significance
of the difference between the mean pre-test scores
of pupils in the experimental and control groups. ................. 188

Table - 5.18 Data and results of test of significance of the difference
between the mean post test scores of pupils in the
experimental and control groups. .................................. 189

Table - 5.19 Data and results of tests of significance of the difference
between the mean gains of scores of children in the
experimental and control groups. .................................. 190

Table - 5.20 Summary of ANOVA of pre-test and post-test scores
of experimental and control groups (Total Sample) ............... 191

Table - 5.21 Summary of ANCOVA of Pre-test and post-test
scores of pupils in the experimental and control groups. ...... 192

Table - 5.22 Data for adjusted means of post-test scores of
pupils in experimental and control groups. ........................ 193

Table – 5.23 Summary of ANOVA of pre-test and post-test
scores of experimental and control groups for boys. .......... 194

Table - 5.24 Summary of ANCOVA of pre-test and post-test
scores of pupils in the experimental and control
group for boys ................................................................ 195

Table – 5.25 Data for adjusted means of post-test scores of
boys in experimental and control groups. ......................... 196

Table - 5.26 Summary of ANOVA of pre-test and post-test
scores of experimental and control group for girls. ............ 197

Table - 5.27 Summary of ANCOVA of pre-test, post-test scores
of pupils in the experimental and control groups for girls. .... 198

Table - 5.28 Data for adjusted means of Post-test scores of girls in
experimental and control groups. ................................... 199

Table - 5.29 Summary of ANOVA of pre-test and post-test ........ 200
scores of experimental and control groups
of government schools.

Table - 5.30 Summary of ANCOVA of pre-test, post-test scores
of pupils in the experimental and control groups
of government schools ................................................. 201
Table - 5.31  Data for adjusted means of Post-test scores of government schools in experimental and control groups.  .. 202
Table - 5.32  Summary of ANOVA of pre-test and post-test scores of experimental and control groups for Private schools. ................................................................. 203
Table - 5.33  Summary of ANCOVA of pre-test, post-test scores of pupils in the experimental and control groups of Private schools. ................................................................. 204
Table - 5.34  Data for adjusted means of Post-test scores of Private schools in experimental and control groups .......... 205
Table - 5.35  Summary of ANOVA of pre-test and post-test scores of experimental and control groups for rural schools. .. 206
Table - 5.36  Summary of ANCOVA of pre-test, post-test scores of pupils in the experimental and control groups of rural schools ................................................................. 207
Table - 5.37  Data for adjusted means of Post-test scores of rural schools in experimental and control groups .......... 208
Table - 5.38  Summary of ANOVA of pre-test and post-test scores of experimental and control groups of Urban schools. ......... 209
Table - 5.39  Summary of ANCOVA of pre-test, post-test scores of pupils in the experimental and control group of Urbanschools. ................................................................. 210
Table - 5.40  Data for adjusted means of Post-test scores of Urban schools in experimental and control groups. ............ 211
Table - 5.41  Consolidated results of analysis of the pre-test and post test scores of children in the experimental and control groups. ................................................................. 212
Table - 5.42  Consolidated results of analysis of the pre-test and post test scores of children in the experimental .......... 213 and control groups.
Table - 5.43  Consolidated results of analysis of adjusted means of post-test scores of children in the experimental and control groups. ................................................................. 214
