ACKNOWLEDGEMENT

I have been accompanied and supported by many people directly or indirectly for the completion of this study. I wish to place on record my profound sense of appreciation for all of them.

I would like to express my deep and sincere gratitude to Dr. Thara K. Simon, Selection Grade Lecturer in Botany, Union Christian College, Aluva, for her understanding, encouragement and guidance throughout the conduct of this work.

I am obliged to the Management and Principal, M. E. S. Asmabi College, P. Vemballur, for granting me leave under the faculty improvement programme. The whole hearted support of all my colleagues in the Department of Botany is gratefully acknowledged.

It is a pleasure to express my gratitude to the Principal Dr. Varghese John, Former principal, Dr. Raju K. John, Prof. Santha M. Mathew, Prof. P. J. Aleyamma and the faculty of the Research Department of Botany, U. C. College, Aluva.

I am grateful to Dr. K. H. Alikunji, Retd. Director, CIFE, Bombay and Former Advisor, FAO, for his suggestions and constant encouragement. I am indebted to Dr. Sunil Kumar Mohamed, Head, Molluscan Department, CMFRI, Kochi, Dr. K. P. Abdu Rahman, Dr. Ramalinga and Smt. Jenny, CMFRI, Kochi, for their help.
My thanks are due to Sri. H. Krishna Iyer, Retd. Principal Scientist, Extension, Information and Statistics, CIFT, Cochin and Dr. Valsamma, CUSAT, Cochin, for the assistance rendered in statistical analysis and interpretation of data.

I would like to thank Mr. M. G. Cyriac, Executive Engineer, Regional Water Analysis Laboratory, Thrissur and Dr. N. Chandramohankumar, Head, Department of Chemical Oceanography, CUSAT for the facilities provided in carrying out the water analysis.

I am obliged to Dr. V. Krishnamurthy and Dr. N. Rajasulochana of The Krishnamurthy Institute of Algology, Chennai, Dr. P. Kaladharan, Scientist, CMFRI, Kochi and Sanalkumar, Research Scholar, Cochin University of Science and Technology, Kochi, for useful suggestions and assistance in identification of algae. I recall with gratitude the help rendered by Mr. K. K. Abdurahiman, Chief Environmental Engineer and Mr. K. V. Shahnavas, Assistant Environmental Scientist, Kerala State Pollution Control Board during the conduct of this study.

My thanks are due in no small measure to Dr. V. M. Asma, M. E. S. Asmabi College, Prof. Tessy Paul, Christ College, Irinjalakuda, Prof. K. D. Girija, S. N. M. College, Maliankara and Dr. Beena B. Nair Union Christian College, Aluva for their inspiring and valuable suggestions. I am thankful to Sri. Jacob Elias, Dr. Geetha K., Dr. Lissy K. P. and Prof. Egy T. Paul for their support.

I am deeply indebted to Dr. C. N. Sunil, S. N. M. College, Maliankara and The Botanical Survey of India, Coimbatore for the help rendered to me in identifying the specimen collected during the survey.
I am especially grateful to Prof. Abdul Razak, Prof. K. K. Kairunissa and Dr. C. A. Ingatius, M. E. S. Asmabi College, Dr. Suresh Kumar and Dr. Aysha, M. E. S. College, Ponnani for their constructive suggestions.

The library facilities extended by M. G. University, Kottayam; School of Environmental Science, Kottayam; Calicut University, Calicut; Kerala University, Thiruvananthapuram; Madras University, Chennai; Krishnamurthy Institute of Algology, Chennai; CMFRI, Kochi; KFRI, Peechi; U. C. College, Aluva; Christ College, Irinjalakuda and M. E. S. Asmabi College, P. Vemballur are gratefully acknowledged.

The help rendered by Mr. Amitha Bachan, Smt. Safna, Mr. Salam and Mr. Satheesh is gratefully acknowledged. I am grateful to Smt. Dhanya Biju and Educare Computers for the quick and neat execution of the manuscript.

The help rendered by the non teaching staff of Departments of Botany and Chemistry of M. E. S. Asmabi College and Department of Botany, U. C. College, Aluva is gratefully acknowledged.

I wish to express my gratitude to University Grants Commission, Govt. of India, New Delhi, for the financial assistance and to the staff of M. G. University for their timely help.

I am much obliged to my husband, father, sons, sister, nephew Shad and other members of my family for their unflagging love and support.

Above all, Praise be to God Almighty, for having led me through to the completion of this doctoral programme.
