DECLARATION

I hereby declare that the thesis entitled 'Modelling landslide susceptibility on a regional scale using remote sensing and GIS: an assessment of parts of the Meenachil river basin of Western Ghats, India', is an authentic record of original research carried out by me in the Centralized Remote Sensing and GIS Facility, School of Environmental Science, Mahatma Gandhi University, Kottayam under the supervision of Dr. G. Madhu, Professor, School of Engineering, Cochin University of Science and Technology, Kochi. This work is entirely original in its contents and has not been submitted before, either in part or whole to any University or institute for the award of any degree or diploma.
