</table>
12. Mortality rate of *A. testudinaceus* exposed to different concentrations of Ammonium sulphate

13. Probit analysis for *A. testudinaceus* on Ammonium sulphate 24 h.

14. Probit analysis for *A. testudinaceus* on Ammonium sulphate 48 h.

15. Probit analysis for *A. testudinaceus* on Ammonium sulphate 72 h.

16. Probit analysis for *A. testudinaceus* on Ammonium sulphate 96 h.

17. Mortality rate of *A. testudinaceus* exposed to different concentrations of Copper sulphate

18. Probit analysis for *A. testudinaceus* on Copper sulphate 24 h.

19. Probit analysis for *A. testudinaceus* on Copper sulphate 48 & 72 h.

20. Probit analysis for *A. testudinaceus* on Copper sulphate 96 h.

21. Mortality rate of *C. carpio* exposed to different concentrations of Ammonium sulphate

22. Probit analysis for *A. testudinaceus* on Copper sulphate 24 h.
23. Probit analysis for *A. testudineus* on Copper sulphate 48h. 68
24. Probit analysis for *A. testudineus* on Copper sulphate 72h. 70
25. Probit analysis for *A. testudineus* on Copper sulphate 96h. 72
26. Mortality rate of *C. carpio* exposed to different concentrations of Copper sulphate 74
27. Probit analysis for *C. carpio* on Copper sulphate 24h. 75
28. Probit analysis for *C. carpio* on Copper sulphate 48h. 77
29. Probit analysis for *C. carpio* on Copper sulphate 72h. 79
30. Probit analysis for *C. carpio* on Copper sulphate 96h. 81
31. 95% fiducial limits, LC₅₀ values and regression equation of *A. testudineus* exposed to Ammonium sulphate & Copper sulphate 83
32. 95% fiducial limits, LC₅₀ values and regression equation of *C. carpio* exposed to Ammonium sulphate & Copper sulphate 84
33. Hatching rate of eggs of *C. carpio* exposed to sublethal dose of Ammonium sulphate 101
34. Percentage mortality of eggs of *C. carpio* exposed to sublethal dose of Ammonium sulphate 102
35. Hatching rate of eggs of *C. carpio* exposed to sublethal dose of Copper sulphate 103
36. Percentage mortality of eggs of *C. carpio* exposed to sublethal dose of Copper sulphate 104
37. Mean survival percentage of *C. carpio* egg hatched in sublethal concentration of Ammonium sulphate

38. Mean survival percentage of *C. carpio* egg hatched in sublethal concentration of Copper sulphate

39. Two Way ANOVA comparing concentration and observations of egg survival of *C. carpio* exposed to Ammonium sulphate

40. Two Way ANOVA comparing concentration and observations of egg survival of *C. carpio* exposed to Copper sulphate

41. Mean survival percentage of *C. carpio* larvae hatched in sublethal concentration of Ammonium sulphate

42. Mean survival percentage of *C. carpio* larvae hatched in sublethal concentration of Copper sulphate

43. Two Way ANOVA comparing concentration and observations of larval survival of *C. carpio* exposed to Ammonium sulphate

44. Two Way ANOVA comparing concentration and observations of larval survival of *C. carpio* exposed to Copper sulphate

45. Physico-chemical parameters in the experimental tanks during the exposure of *A. testudineus* to Ammonium sulphate

46. Physico-chemical parameters in the experimental tanks during the exposure of *A. testudineus* to Copper sulphate

47. Physico-chemical parameters in the experimental tanks during the exposure of *C. carpio* to Ammonium sulphate

48. Physico-chemical parameters in the experimental tanks during the exposure of *C. carpio* to Copper sulphate

49. Histopathological assessment tools for 3 fish organs (i.e. Gills, Liver and Kidney).
50. Organ Index value of the Gills of *A. testudineus* exposed to Ammonium sulphate (1487 ppm)

51. Organ Index value of the Liver of *A. testudineus* exposed to Ammonium sulphate (1487 ppm)

52. Organ Index value of the Kidney of *A. testudineus* exposed to Ammonium sulphate (1487 ppm)

53. Organ Index value of the Gills of *A. testudineus* exposed to Copper sulphate (.002 ppm)

54. Organ Index value of the Liver of *A. testudineus* exposed to Copper sulphate (.002 ppm)

55. Organ Index value of the Kidney of *A. testudineus* exposed to Copper sulphate (.002 ppm)

56. Organ Index value of the Gills of *C. carpio* exposed to Ammonium Sulphate (250 ppm)

57. Organ Index value of the Liver of *C. carpio* exposed to Ammonium sulphate (250 ppm)

58. Organ Index value of the Kidney of *C. carpio* exposed to Ammonium sulphate (250 ppm)

59. Organ Index value of the Gills of *C. carpio* exposed to Copper sulphate (0.00006 ppm)

60. Organ Index value of the Liver of *C. carpio* exposed to Copper sulphate (0.00006 ppm)

61. Organ Index value of the Kidney of *C. carpio* exposed to Copper sulphate (0.00006 ppm)

62. Total index of *A. testudineus* exposed to Ammonium sulphate (1487 ppm) based on organ index
63. Total index of *A. testudineus* exposed to Copper sulphate (.002 ppm) based on organ index

64. Total index of *C. carpio* exposed to Ammonium sulphate (250 ppm) based on organ index

65. Total index of *C. carpio* exposed to Copper sulphate (.00006 ppm) based on organ index
