ACKNOWLEDGEMENT

The author would like to thank her **Supervisor** **Dr. R. Radhakrishnan**, Principal, Sri Shakthi Institute of Engineering and Technology, Coimbatore for his sustained efforts in motivating and guiding her with expertise and insight during the years that she has spent for this research program. She feels highly obliged to him for his valuable suggestions and positive criticism enabling her to complete her research successfully. She feels highly indebted to **Dr. M. Rangasamy**, Dean, Electrical Sciences, Sri Ramakrishna Engineering College, Coimbatore and **Dr. C. Kalaiarasan**, Principal, Tamilnadu College of Engineering, Coimbatore who are the members of doctoral committee for being a source of inspiration and a motivating force throughout the course. She would like to thank them, for dedicating their valuable time to provide her with useful suggestions and continuous support. The scholar is thankful to the management, principal and faculty members of Hindusthan Institute of Technology, Coimbatore for the immutable patronage and benevolence for the successful completion of this research. She owes a special gratitude to her parents, husband and daughter who have helped her to carry out this research tirelessly with their moral support, encouragement and incessant prayers.

**BAVITHIRAJA S.V.M.G.**
