Acknowledgement

“Oh give thanks to the Lord, for He is good, for his steadfast love endures forever”- Psalm 107:1. First of all, I would like to thank God Almighty for His mercy and grace that enabled me to successfully complete the thesis.

I offer my humble gratitude to Sri, Mata Amritanadamayi Devi (AMMA), Chancellor, Amrita Vishwa Vidyapeetham for providing me an opportunity to carry out my research at this esteemed university.

I express my deepest sense of thankfulness to Professor Bipin Nair, supervisor, for grooming me as a PhD student. Sir, your warm words of encouragement, the values you have imparted, your thoughtful guidance, and critical comments have helped me reach my goal. The freedom to follow my own path without interference and the timely guidance to recover when my steps faltered has molded me to a great extent.

Words are not enough to express the extent of help, support and guidance provided by Dr. T.G. Satheesh Babu, thesis co-advisor. Without his timely encouragement, tireless supervision and direction, this research work would have remained incomplete. I feel extremely privileged to have a great brother and friend in him. He has been a great source of comfort and consolation in my life’s testing times. His patience and love have been indispensable to my growth, both as a scientist and as a person over the past years.

I am extremely thankful to Prof. T. Ramachandran, Department of Sciences for his constant encouragement, guidance, valuable observations and critical comments both during the experimental design and thesis writing. He has always been beside me to motivate and push me forward.

I express my deepest gratitude to Prof. A.K. Balakrishnan Nair (Chairman Admissions) for his support, guidance and for all help provided.

I take this opportunity to thank Brahmachari Abhayamrita Chaithanya (Pro-Chancellor) for his tremendous support, and encouragement.

I also like to thank Dr. S. Mahadevan (Chairman, Dept. of Sciences) and Dr. K.I. Ramachandran (Professor, CEN) for their care and encouragement.
My research journey has been a joyful, memorable and meaningful one. Thanks to the Biosensor Research family at Amrita Vishwa Vidyapeetham, without them, my research career wouldn’t have been so enjoyable. Dr. Suneesh P V has been a great friend with whom I have cherished most of my research days. I am extremely grateful to Dr. Keerthy Dhara, for all the moral support and encouragement she had provided. I am also thankful to Mr. Vineeth, Ms. Vidhu, Ms. Aarathi, Ms. Jyothi Sree, Ms. Jeethu, Mrs. Resmi and Ms. Rajasree for all the help and support they have given me.

I express my wholehearted thanks to Mrs. Remya Krishnan for the tremendous help and support she had provided during the fabrication of the disposable sensors.

I would like to thank my dear friend Mr. Adarsh for all the support and encouragement. My dear brother Nidhin T Madhu has been greatly instrumental in making this thesis more colorful and lively.

I am grateful to Mr. K. Guruvayurappan for all the support, guidance and help provided. I express my wholehearted thanks to all the members of the Department of Sciences and the School of Biotechnology for their help, encouragement and care.

I take this opportunity to thank Dr. S. Kalamani and Dr. Raichel M Sylus, Department of English, Avinashilingam University for helping with English language correction.

I would like to thank Council of Scientific and Industrial Research (CSIR) and the Department of Biotechnology (DBT), Government of India for providing me with financial assistance to carry out my research activities.

Last but not the least, I would like to acknowledge the support provided by my family members. Thank you all for your faith in me and my abilities and encouraging me to pursue this research work. None of this would have been possible without their love and patience. Their care, sacrifice, selfless devotion and strength throughout these years have helped me accomplish my goals. I am thankful to my mother and perima for standing by me at all times and providing me with all the encouragement I required.

John Stanley
