ACKNOWLEDGMENT

"One who does not thank the people cannot thank Allah."

The work with this thesis has been extensive and challenging. At the same time, it was an interesting process of learning as well. However, it would not have been possible for me to take up this ambitious and daunting task without the constant support and encouragement from the various people. I would like to express my deep sense of gratitude to them for their help in catalyzing this work’s completion.

I am highly indebted to Prof. S.A. Rahman, my teacher and Supervisor, without whose illuminating guidance, encouragement, accessibility, and magnanimity this formidable task could not have been accomplished. I take this opportunity also to thank my teachers Prof. F U Farooqi, Prof. Aslam Islahi, Dr. A B Basheer Ahmad, Dr. Rizwanur Rahman, and Dr. Mujibur Rahman.

With deep sense of gratitude, I would like to thank to Ms Shahla Khan for her care and concerns in many ways whenever I was in need. On this occasion, I cannot forget to express my heartfelt thanks to Humza Ali Khan for his relentless concerns.

I also express my profound sense of thankfulness to my wife, Sabuhi Jamal, whose love and cooperation allowed and enabled me to pursue and complete this work. I express my love and best wishes for my daughter Fariha Azim whose cherubic lisping and frolicking removed the tedium of the task.

It is my prerogative to extend my thanks to my family members and dear and near ones especially my beloved father (May God overwhelm him with mercy); mother, brothers and sisters who have been a constant source of love, care and support by all means. It is mainly their contribution with all respects that I was able to take this study.

I also owe my gratitude to my friend (in real sense) Shakeel Ahmed Salafi who inspired me to see not only the mirror image of the world reality but also to go beyond that. I feel obliged to thank to Vagish Jha, Rajesh Jha, Dr. Kamal Narayan Patel, Manzar Hussain, Nitesh Sahay and Mitu Pathak for extending their help at the crucial juncture in many ways, S. Rashid Hassan and Ataur-Rahman. Specially without the moral support of Hamad Rizwi, Tripti, Zafeer Ahmad, Nezam Hassan, Dr. Md. Kazim, Dr. Md. Aquil, Ahmad Kafil, Mirza Nehal Ahmad Baig, Muhammad Shahid, Qutubuddin, Athar Afzal, Tahir Lari, Moinuddin Khan, Khan Shahid Wahab and Mohammad Ghufran this work would have been difficult to reach at this level.

My thanks are due to the staff members and librarian of JNU, Jamia Millia Islamia and Sahitya Akademi Libraries who facilitated the completion of this work.
