ACKNOWLEDGEMENTS

This thesis is the culmination of my journey of Ph.D which was just like climbing a high peak step by step top experiencing the feeling of fulfillment, I realized though only my name appears on the cover of this dissertation, a great many people including management, guide, my family members, well-wishers, my friends, colleagues have contributed to accomplish this huge task. It is my pleasure to convey my gratitude to the persons whose contribution in various ways in making the thesis deserved. I humbly acknowledge all of them.

At this moment of accomplishment first and foremost, I would like to thank my guide, promoter and research supervisor Dr. A. Senthil Kumar, for providing me with an invaluable opportunity, to work on such a challenging and extremely interesting project over the past five years. I take this opportunity to thank his with deep sense of gratitude for the painstaking tutelage, training, encouragement, support and suggestions throughout the course of this work.

My sincere thanks to our Honorable Chancellor Dr. G.Viswanathan and VIT management for providing me an opportunity to carry out my doctoral studies in this prestigious university with the needed infrastructure and lab facilities.

I am also thankful to Prof. Ramesh Babu, Dean Research Academics, and the Dean Prof. A. Mary Saral, School of Advanced Sciences and Prof. S.L. Manju, HOD chemistry and Prof. Vijayaraghavan, former Dean and Prof. A. Sheela, former HOD, SAS, for their constant support.

With profound feelings, I express my sincere thanks to Prof. Lakshmi Narayanan, Director, Raman Institute, Bangalore, Prof. K. Sankaran, Anna University and also Prof. G. Buvaneshwari VIT for acting as my DC members and for the stimulating scientific discussion in DC presentations.

I take this opportunity to thank some people Dr. A. Sivakumar, Dr. S. Senthil Kumar for being so nice with me during the M.Sc lab duty times from early days of my research tenure. My heartfelt thanks to Dr. Rajagopal, Dr. Sriraghavan and Prof. Sudhakaran (SBST) for their fruitful suggestions.
I would like to thank the scientific assistants Mr. Periasamy, Mr. Viswanathan, Mr. Saikumar, Mr. Vinoth for their timely help. Also thank my supportive non teaching staff, Mrs. Santhi, Mrs. Kalpana, Mr. Anandan, Mr. Ezhumalai, Mr. Dhillipkumar, Mr. Palani for their kind help.

I continue to express my regards to the research scientists, Dr. N. Saravanan and Dr. B. Dinesh, who were very supportive in providing me the suggestions for my research career.

Life in the campus has been very pleasant with the company of many good life-time friends and wonderful batch mates “Westsiders”, Dr. Geetha, Dr. Preethi Iyappan, Ms. Anusha, Ms. Praneetha, Dr. Sathyan, Dr. Mathivanan, Mr. Prabakaran Mr. Mukesh Kumar, Mr. Madhusudhanan and Ms. Subhasri for their neverending love and care towards me.

I thank my fellow labmates for the stimulating discussions, working together weekly presentations, and for all the fun we had in the last five years. Heartfelt thanks to my lab seniors, Dr. Sornambikai, Dr. Swetha, Dr. Thangaraj, Dr. Barathi, Dr. P. Gayathri, Dr. Shanmugam, Dr. N. Vishnu, Dr. Nellaippan, Dr. P. N. Mayuri, my colleague cum friend Dr. Amreen and the present juniors Ms. S. Nisha, Ms. Mansi Gandhi, Ms. Saikrithika, Ms. Maheswari, Ms. Monisha and Mr. Srini for all your timely help throughout.

I also sincerely thank Prof. K. Uma Maheswari, Dean SCBT, SASTRA University who gave me freedom and moral support during my final viva. Also, I would like to thank some of my SASTRA friends especially Dr. G. Sakthivel, Dr. Anupama, Dr. Sasya Jayanth, Ms. V.S. Kaviarasi, Ms. K. Gayathri, Ms. H. Agnes Preethi and Mr. Sathyan who provided decisive and energetic support during the difficult times.

Words will not suffice to thank my lovable sisters Mrs. Meena Harihara and Mrs. Latha Ravikumar who backed me in all the aspects of my life and sharing each and every moment right from my childhood. I am always thankful for them for their immense love and affection.
Where would be I? Without my parents. My exceptional thanks remain to my dear parents N. Kalyana Sundaram and K. RajaKumari for bearing me in all the Ups and downs of my life by showing me the joy of intellectual pursuit ever since I was a child. My deep gratitude to my parents for showing faith in me and giving me liberty to choose what I desired. I salute them all for the selfless love, care, pain and sacrifice they did to shape my life.

I am highly indebted to my sister R. Gayathri, R. Kavya and brothers J.Sasi Kumar, R.Dhanush for understanding my situation and helping me in all aspects to finish my Ph.D. I do remember the sweet smile which gave me a refreshing mood ever, I thank all these kids Tabaswini, Poorvaja, Kavin Rohith, Lakshasri, who are the pride and joy of my life.

Words are not enough to express my appreciation and gratitude whose dedication, love and persistent confidence in me, has taken the load off my shoulder and for being so understanding and putting up with me through the toughest moments of my life. I specially thank almighty god for creating my implicit reflection Mr. V. Silambarasan my adorable companion who was with me in all the aspects and made me to learn so many things with his encouraging words and cool criticisms.

It is impossible to remember all who, in one way or another, helped me to reach this stage in my life, and I apologize to anyone that I have inadvertently overlooked. Lastly, I thank them all.

Finally, I would like to thank GOD for providing me enough strength and confident to the successful realization of this thesis.
