PART - [A]

HPLC METHOD DEVELOPMENT AND VALIDATION OF SOME PHARMACEUTICAL FORMULATIONS

Introduction
1. Need for drug analysis 10
2. Chromatography methods 11
   2.1 High performance liquid chromatography 12
   2.2 Quantitative analysis in HPLC 17
3. Objective 32
4. References 34

Section-I

Development and validation of a stability indicating HPLC assay method for determination of Leflunomide in tablet formulation
1. Introduction to Leflunomide 36
2. Literature review 38
3. Aim of present work 42
4. Experimental 43
5. Results and discussion
   5.1 Development and optimization of the HPLC method 45
   5.2 Degradation study 47
   5.3 Method validation 49
6. Calculation and data 59
7. References 70

Section-II

HPLC Method development and validation of combine dosage form of Cefixime and Ornidazole in tablets
1. Introduction of drug 71
   1.1 Introduction to Cefixime 72
   1.2 Introduction to Ornidazol 74
2. Literature review 74
3. Aim of present work 85
4. Experimental 86
5. Results and discussion
   5.1 Development and optimization of the HPLC method 88
   5.2 Method validation 90
6. Calculations and data 100
7. References 122
Section-III

HPLC Method development and validation of combine dosage form of Atenolol and Indapamide in tablets
1. Introduction of drug
   1.1 Introduction to Atenolol
   1.2 Introduction to Indapamide
2. Literature review
3. Aim of present work
4. Experimental
5. Results and discussion.
   5.1 Development and optimization of the HPLC method
   5.2 Degradation study
   5.3 Method validation
6. Calculations and data
7. References

PART-[B]

DEVELOPMENT AND VALIDATION OF A STABILITY INDICATING UPLC ASSAY METHOD FOR DETERMINATION OF LEFLUNOMIDE IN TABLET FORMULATION

1. Introduction
2. Literature review
3. Aim of present work
4. Experimental
5. Results and discussion
   5.1 Development and optimization of the UPLC method
   5.2 Degradation study
   5.3 Method validation
6. Calculations and data
7. References

PART - [C]:

STUDIES OF SIMULTANEOUS ESTIMATION OF FUROSEMEIDE AND SPIRONOLACTONE FROM DRUG PRODUCT BY HIGH PERFOMANCE THIN LAYER CHROMATOGRAPHY (HPTLC)

1. Introduction to HPTLC
2. Introduction of drugs
   2.1 Introduction to Furosemide
   2.2 Introduction to Spironolactone
3. Literature review
4. Aim of present work
5. Experimental
6. Results and discussion
   6.1 Development and optimization of the HPTLC method 237
   6.2 Method validation 241
7. Calculations and data 246
8. References 262

PART-[D]

UV-VISIBLE SPECTROPHOTOMETRIC METHOD DEVELOPMENT AND VALIDATION OF LAMOTRIGINE AND IT’S TABLETS FORMULATION

1. Introduction of UV Spectrophotometer 264
2. Introduction to Lamotrigine 267
3. Literature review 269
4. Aim of present work 271
5. Experimental 272
6. Results and discussion
   6.1 Development and optimization of the spectrophotometric method 273
   6.2 Method validation 275
7. Calculations and data 279
8. References 291
