ACKNOWLEDGEMENT

I thank the Almighty, for giving me light and strength without which this thesis would not have been a reality.

I wish to acknowledge with gratitude the committed, dedicated and relentless effort of my Research Supervisor beloved Dr. J. Jeyanthi M.E., Ph.D., Associate Professor, Department of Civil Engineering, Government College of Technology, Coimbatore, for her continued encouragement and timely support. During the most difficult times, she gave me the moral support and the freedom I needed to move on. I shall always cherish the academic freedom I enjoyed under her throughout my life.

I would like to thank the doctoral committee members Dr. S. Mahimairaja, Ph.D., Professor, Department of Environmental Science, T.N.A.U., Coimbatore and Dr. M. Ibrahim Bathusha, Ph.D., Associate Professor, Department of Civil Engineering, P.S.G. College of Technology, Coimbatore in a special way for their valuable suggestions. I also wish to thank all the staff members of the Department of Civil Engineering, GCT, Coimbatore for their constant words of encouragement.

I would like to beholden my parents whose prayers and sacrifices saw me through the completion of this work. With profound sense of gratitude I acknowledge the support, encouragement and the priceless help and co-operation of my husband Dr. P. Sivaprakash and my children Master S. Abhinav and Baby S. Anugraha.

A final word of thanks to all my friends and equals for their encouragement and untiring help rendered throughout the period of my work.

KANCHANA S
