ACKNOWLEDGEMENT

First of all it is the “Almighty” before whom I bow my head with great reverence, without his endless blessing this task could not be accomplished.

I feel paucity of words to express my profound sense of veneration and indebtedness to Dr. Surendra Singh, Associate Professor and Head, Department of Genetics and Plant Breeding, Brahmanand Post Graduate College Rath (Hamirpur, U.P.). The major advisor of my advisory committee for his inspiration, noble guidance, enthusiastic interest, outstanding co-operation, unending zeal, constant encouragement, calm endurance, diligence and constructive criticism during the entire course of investigation and preparation of this manuscript. I shall always remain indebted to him for his parental care, affection and generosity bestowed on me.

I highly appreciable Dr. K.B. Verma, Principal, Brahmanand Post Graduate College Rath for providing me all the necessary facilities.

I am also grateful to Dr. B.S. Rajput, Associate Professor and Dr. Atul Shukla, Assistant Professor, Department of Genetics and Plant Breeding for their encouragement and help during the course of present study.

All the words in the lexicon will be fulfil and meaningless if I fail to express the obligation from the fathom of my heart for my beloved and venerable parents Shri Ujagar Lal Katiyar and Smt. Indrani Katiyar who displayed enormous strength, courage and Perseverance and morale support to complete my degree. My whole family members Jijaji-Didi Rajesh Katiyar, Mrs. Pushpa Katiyar and Mr. Vipin, Mrs. Rekha, my younger brother Amit Katiyar and my Wife Priti Katiyar and loving Komal and Ansh for their love and affection to achieve my aim.

At this point of time, it will be meaningless if I fail to express my faith and love in my close friends Rakesh Tiwari, Alok Yadav, Anup Batham,
Mahaveer Vishwakarma, Chandra Bhushan, Avinash Sharma, Dhermendra Katiyar and my seniors Dr. Jitendra Tiwari, Dr. Atul Shukla, Aman Katiyar, Sunil Rawat for their outstanding co-operation and morale support.

I will like to give special thanks to Dr. Harish Chandra, C.S.A. University, Kanpur and Atul Shukla their unconditional support during course of the investigation without whom it would have been difficult to complete the thesis work easily. I shall always oblige them throughout my life.

I am also thankful to Mr. Yasir and Saif (Icetech Computer), who finds a prominent place in every aspect of this manuscript preparation.
