<u>INTRODUCTION</u>	01 - 23
<u>1. Statement of Problem</u>	
(a) Concept of agro – industries and rural development	
(b) Present state of rural areas in absence of industries.	
2. Study Area : Location, Extent, shape, size, area, population and Administrative set up.	
3. Objectives of the study.	
4. Review of literatures and research gaps.	
5. Methodology	
(a) Sources of data	
(b) Techniques of the study	
<u>CHAPTER- 2–Geographical – Background of the study area. Page No.</u>	
A – <u>Physical</u> : Geology, Structure, Relief, Drainage, Climate, Soil, Flora and Fauna.	24 - 65
B. <u>Economic</u> : Agriculture, Total area, Net sown area, Net irrigated area, Production of different crops, Surplus, Cropping pattern Cropping intensity.	
C. <u>Socio cultural background</u> : Population, Growth, distribution, density, Literacy, social structure of the area,	

units and rural development,

(A) Classification of Agro –Industrial units **66 - 122**

(i) **Agro- produce processing units** – Rice mills, Flour mills, Pulse mills, Potato chips plant, Tomato and chili sauce extraction units etc.

(ii) **Agro-Produce manufacturing units** –Bakery Bread & Biscuits, Sugar units, Straw board units, Alcohol units, Neem oil, Rice Bran etc.

(iii) **Agro-Inputs manufacturing units** - Fertilizers, Insecticides and pesticides etc.

(iv) **Agro–Service centers** – Workshop and service centers engages in repairing and servicing of pump sets, Diesel engines, tube wells, tractors and all type of farm implements.

(B) Growth of Agro – Industrial units.

(i) The study covers the development of agro-industrial units since the last 5 year from (1999 -2004)

(ii) About 30 % agro- industrial units will be selected out of total registered agro- industries for the study.

(C) Contribution of agro- industrial units in the rural development of the study area.

(D) Measurement of rural development

(i) Based on socio- economic and cultural variables

(ii) Based on some relevant weight age and statistical devices.

Entrepreneurs

- i. Age of entrepreneurs **123 -136**
- ii. Sex – Male / Female
- iii. Caste of entrepreneurs and their socio-economic level
- iv. Literacy of entrepreneurs
- v. Trained/untrained skill of entrepreneurs
- vi. Family size of entrepreneurs
- vii. Land holdings of entrepreneurs
- viii. Management of entrepreneurs (i.e. Partnerships, co-operative units and joints stock from of organizations.

CHAPTER -5, Performance of Agro – Industrial units

Page No.

- i . Capital investment(fixed capital and working capital) **137-164**
- ii. Generation of output (Income and employment)
- iii. Profitability of enterprise
- iv. Deployment of re-investment surplus.
- v. Capacity of utilization of agro-industrial units.

CHAPTER- 6. Problems in the Growth of Agro-Industrial **Page No.**

units.

- i. Identification of beneficiaries **165 -189**
- ii. Raw Materials
- iii. Finance
- iv. Labor
- v. Transport
- vi. Power and technology
- vii. Marketing

CHAPTER -7 Strategies for Agro-Industrial development **Page No.**

- 1. Improvement of socio-economic infrastructure (like **190-214**
Rural road networks, communication facilities, educational facilities, health services and sanitation etc.
- 2. Identification of Industrial entrepreneurs
- 3. Emphasis on development of agriculture (i.e. adoption of
new agricultural innovations and technology use of biofertilisers
and vermin-technology in agriculture.
- 4. Promotion of non – conventional source of rural energy (viz
Bio-gas energy, solar energy and wind energy)
- 5 Rural marketing development
- 6. Credit facilities
- 7. Rural employment and man power utilization
- 8. Areas of functional gaps and optimum location sites for a new

agro-industrial units.

9. Co-ordination among various development agencies
10. Suggestion for Agro-Industries to translate their benefit for
Rural Development
Human Resource Development,
Infrastructure Development,
Planning for local skills and artisans Village handicraft
And cottage Industries small scale industries.
