ACKNOWLEDGEMENTS

I would like to express my deep gratitude to my mentor Dr. A. K. Kukreja, Scientist and Head, Plant Tissue Culture Division, Central Institute of Medicinal and Aromatic Plants (CIMAP) for his guidance and expertise which was instrumental in successfully bringing the present work to completion. I am especially thankful to him for his valuable suggestions and keen interest which helped me in compiling and presenting the work in the form of thesis. I would like to express my deep sense of gratitude to my guide and supervisor Prof. N. S. Bisht, Head, Department of Botany, Hemwati Nandan Bahuguna Garhwal University, Srinagar, Garhwal, for his valuable guidance, constant encouragement and constructive criticism.

I am thankful to Dr. S.P.S Khanuja, Director, CIMAP for providing me the opportunity and facilities to work in this prestigious institution.

I also acknowledge the helpful suggestions and encouragement rendered by Dr. (Mrs.) S. Banerjee.

I would like to thank Dr. Laiqurrahman and Mr. Sanjog T. Thul for their constructive and helpful suggestions and support during the entire course of study.

Thanks are also due to Dr. A. K. Shasany, Mr. M. P. Darokar and Dr. Ashutosh Shukla, Scientists, Genetic Resources and Biotechnology Division, CIMAP for providing the opportunity to work in their laboratory and allowing me to carry out the molecular characterization aspect of my investigation.

I also acknowledge the help provided by Dr. A. K. Mathur and Dr. (Mrs.) A. Mathur during the entire course of study.

I would like to thank Dr. O.P. Dhawan for cooperation in this endeavor.

The technical assistance provided by Mr. Krishan Gopal is duly acknowledged.

I wish to record my thanks to Dr. S. K. Srivastava, Library officer and other CIMAP library staff for providing the library facility and their help and cooperation in documentation of the work during the entire course of study.

I am also thankful to Bioinformatics Division for providing uninterrupted internet facility, which was very much helpful in literature survey which otherwise would be a cumbersome task.

I wish to record my thanks to Mr. A.P. Dhiman, Mr. P. P. Singh, Mrs. Indira Rautela, Mr. P. N. Gautam and Mr. A. Mishra for their expert photography and drawings without which helped me to present my work in a better way.
The financial assistance provided to me as Junior and Senior Research Fellowship to carry out my research work by Council of Scientific and Industrial Research (CSIR) New Delhi is greatly acknowledged.

I would like to thank my seniors Dr. Shakti Mehrotra, Dr. Anita Gangwar, Dr. Praveen Verma, and Dr. E. Mathavan for their help and useful suggestions.

I would also like to pay thanks to my dear friends Mukul, Hifzurrhaman, Arshad and Vivek for their help and moral support whenever it was needed.

I would like to cherish the help and encouragement rendered by my colleagues Priyanka, Shrawan, Farzana, Sumbul, Seema, Nitish, Deepak, Santosh, Vikas, Shamshad, Mukesh, Amita, Vijay Raju, Ashish, Sadanand, Pradyut, Golok, Kiran, Neveen, Sanjay, Meena, Gaurav, Deepesh, Devendra, Vibha Sankwar, Rashmi, Ragini, Sonal, Shradha, Keerti, Poonam, Sunanda, Vibha Sachan and Snighdha with whom, working was a nice experience.

I am also thankful to Bindra, Mukesh and Durgesh for their cooperation and generous assistance during my work.

I am also wholeheartedly thankful to my parents for their unconditional support, love and care which cannot be expressed in words but only can be cherished. Without their support it was not possible to bring this work to completion. They always supported and encouraged me and always stood by me whether there were moments of happiness or of frustration and depression.

I express my deep gratitude to my sister and brother-in-law whose constant help and support enabled me to focus myself on research work without unnecessary worries.

Last but not the least I acknowledge the contribution of all those who could not be included here.
