

Acknowledgement

I would like to thank to my supervisor Prof.(Mrs.) Indira Mehrotra for her innovative support, perfect guidance and great encouragement to complete this work successfully. Her deep knowledge regarding the subject and her motivating advice helped me in carrying out the research work in an interesting and thoughtful manner. I have also got the opportunity to work with renowned nuclear theorist Prof. Piter Van Isacker during my one year stay in GANIL, France, through sandwich PhD programme of the Embassy of France in India. I am very grateful to him for his valuable support and guidance. The encouragement of Dr. Vivek Kumar Tiwari is gratefully acknowledged. I would also like to thank to my senior research scholar Dr. Shweta Prakash and fellow research scholars, T. Trevedi, A. Devi, P. Gupta, Anoop, K. Maurya, Uma Shankar and Neelima for their help from time to time during my PhD. I am thankful for the cooperation of the office and library staff of the physics department. The support from renowned scientists S. Gales (GANIL), Alex Brown (MSU), Navin Alhari (GANIL), M. Rejmund (GANIL), F. Rejmund (GANIL), M. Lewitowicz (GANIL), S. Bhattacharya (VECC), A. Shrivastava (BARC), V. Nanal (TIFR), V. I. Zagrebaev (JINR), M. Ploszajczak (GANIL), F. Nowacki (Strasbourg), G. de France (GANIL), Ch. Stodal (GANIL), F. de Oliveira Santos (GANIL), S. Grèvy(GANIL), J.C. Thomas (GANIL), O. Sorlin (GANIL), D. Lacroix (GANIL), B. Blank (CENBG), J.Giovinazzo (CENBG), T. Motobayashi (RIKEN) and Ch. Theisen (GANIL) is humbly acknowledged. The support from my friends of GANIL namely S. Zerguine, Pu, Washiyama, Carole Force, Karim, T. Roger, A. Lemasson, Pang, M. Assi and M. Caamano is more valuable.

I express my gratitude to my father (Sri Gopal Lal Srivastava), my mother (Smt. Asha Srivastava) my uncles (Sri R.R. Lal and Sri H.L. Srivastava) and to my wife Ritu for their moral support and encouragement.

Praveen Chandra Srivastava
