ACKNOWLEDGMENTS

“Creation entails”, says Swami Vivekanand “discipline, dedication, and devotion”. I am privileged in imbibing articulated virtues in fulfillment of my work via sanctified blessings of almighty. I candidly tender my lexes of reverence in the lotus feet of P P Tyag Vallabh Swamiji (Honorary Secretary, Sarvoday Kelavani Samaj) for his incessant blessings.

It is a matter of enormous gratification to pen down the words of gratitude in the honor of Dr. G. R. Kulkarni of bejewels the position of Principal, C. U. Shah College of Engineering and Technology, Wadhwan for his elite and highbrow academics, teaching, direction and benign assistance in shaping my work to the fulfillment. He has created and pointed the path and has facilitated me in my endeavors in every way to reach the successful completion of my work.

I am indebted to extend the lexes of admiration in the nobility of Dr. D. D. Agarwal, vice chancellor of JJTU, Dr Anju Singh, Research coordinator JJTU, Dr. Sanjay Madan, Prof. Wazir Singh, Dr. Om Prakash Chahar and Prof. Ajit Singh of JJTU for providing me with all the intellectual needs that has really pushed my work and motivated me all through my work. They have always been modest and candid in directing me.

I would be grateful in thanking Department of Electronics & Communication of C. U. Shah College of Engineering and Technology for providing me with all the obligatory requirements as and when needed.

I am privileged to have the self-effacing assistance of Dr J. V. Desai, Principal, Atmiya Institute of Technology and Science for his incessant push in completion of my dissertation in due course of time and all who have been kind enough in completion of my work directly or indirectly. I would be also grateful in thanking Department of Electronics & Communication of Atmiya Institute of Technology and Science for
providing me all the type of facility as and when needed. I am also thankful to Mr. A. M. Kothari and Mr. D. G. Kamdar who have rendered their sincere assistance in my research work.

I would like to thank my family members, especially my husband, Prof. Bhavin Sedani for supporting and encouraging me to pursue this degree. Without my husband’s encouragement, I would not have finished the degree. Our bundle of joy, Diya is the very cause of our being. Her child like curiosity and persistence in learning new skills have played a major part in refilling me with the energy to carry on with this research even at time when my spirits drooped. I am equally blessed by parents and in-laws for their ceaseless blessings in completion my thesis.

Last but not least, I thank all persons, who helped me in successful completion of my much awaited research work directly or indirectly.
