Acknowledgement

All through my research work, several phases of delight and frustration have come. Due to support provided by many people I was able to overcome the hurdles. Many people have contributed to the strengths of this dissertation. I would like to acknowledge the contributions by them.

I would like to thank my esteemed guide Dr.Avani F Amin, Head, Department of Pharmaceutics and Pharmaceutical Technology, Principal and I/c Director, Institute of Pharmacy, Nirma University for her constant support and encouragement. Throughout the period of study she showered her knowledge and moral support. Her unbiased observations, valuable comments, untiring efforts and crucial suggestions made this task much easier for me.

I would also like to thank Dr. Jagruti Patel Head of the Department, Pharmacology, Dr. Anuraddha Gajjar, Academic co-ordinator, Institute of Pharmacy and Dr. Priti Mehta, Head of the Department, Pharmaceutical analysis for their kind support during the study. I would also like to thank Dr. Tejal Mehta for providing valuable suggestions during the study. I am also thankful to Dr. Hardik Bhatt and Mr. Mohit Shah for providing help and necessary comments during the study. I would like to acknowledge my department colleagues for providing a friendly atmosphere. I would also like to thank Mr. Nrupesh Patel for his timely help. I would like to thank all members of Institute of Pharmacy, Nirma University for their kind support during the study.
I owe special thanks to Prof. Y.K. Agarwal, Former Director, Institute of Pharmacy, Nirma University for providing the necessary facilities for carrying out the experiments.

I am also thankful to Mukeshbhai, Shaileshbhai, Shilpaben, Satejbhai, Nitinbhai, Shreyasbhai, Manishbhai, Ravindrabhai, Rajubhai for their co-operation during the study.
I would like to thank library staff Dr. Lalitha Poluru, Mrs. Monita Shastri, Mrs. Swetal Joshi and Mrs. Geeta Christian for providing excellent library facility.

I thank Troikaa Pharmaceuticals Ltd, Ahmedabad, Colorcon Asia Pvt Ltd, Goa, Hayashibara Company Ltd, Japan, Signet Chemicals Co-op Ltd, Mumbai, Roquette Pharma, France, Thermax India Pvt Ltd, Pune, Torrent Research Centre, Ahmedabad and Alkem Lab Ltd, Ankleshwar, Gujarat for providing gift samples for carrying out the experiments.

I am thankful to Nirma University for providing financial assistance for the research study.

I also thank the staff of SICART, Vallabh Vidyanagar and CIPET, Ahmedabad for the support rendered during the research study.

I am grateful to the almighty God whose blessings are always with me.

Moral support is the main pillar for achieving any task. I can not forget to mention support and help provided by my parents-in-law and parents. They were always ready to help me wherever possible. My brothers Dr. Kamal Sharma, Dr. Manish Sharma, bhabhi Dr. Neha,
Dr. Ruchi, brother-in-law Chandan and sister-in-law Deepmala always encouraged me to achieve my goal. How can I forget the smiles and laughter of my niece Pratyusha and nephews Praneel and Shobhit.

My Husband Deepak provided the cheerful atmosphere and sacrificed the most during the study. His positive attitude and support were the source by which I am able to achieve this task.

Last but not the least I am thankful to my daughter Pranisha whose smile was enough to replenish tiredness and provide a lively atmosphere.

(Renuka Mishra)
