List of Figures	xii
List of Abbreviations	xiii
List of Spectra	xvi
General Notes	xx
List of Publications	xxi
1. Chapter 1: Introduction	1
1.1. Phytochemistry	1
1.1.1. Phytochemicals as candidate therapeutics	2
1.2. Phytopharmaceuticals	5
1.2.1. Phytopharmaceuticals as candidate therapeutics	5
1.2.2. Natural compounds as medicine	7
1.2.3. Limitation of phytopharmaceuticals	8
1.2.4. The need for quality control	9
1.2.5. Quality control of phytopharmaceuticals	10
1.2.6. Evaluation of phytopharmaceuticals	10
1.2.7. Safety and efficacy of phytopharmaceuticals	12

1.3. Drugs derived from plant sources	13
1.4. Thiazole based phytochemical and pharmaceutical active compounds	15
1.4.1. Thiazole based phytochemical natural compounds	16
1.4.2. Thiazole containing natural products in marine organisms	17
1.4.3. Thiazole derivatives in pharmacology	24
1.4.4. Thiazole in medicinal chemistry	25
1.4.5. Classification	27
1.4.6. Chemistry of thiazole	28
1.4.7. Synthesis of thiazole	29
1.5. Thiazole based drugs in market	31
1.6. Scope and Objective	37
2. Chapter 2: Literature review	38
2.1. Reviews on synthesis of thiazole	38
2.2. Reviews on synthesis and biological evaluation of thiazole	40
3. Chapter 3: Synthesis of substituted thioureas and biphenyl based bithiazole derivatives	63
3.1. Synthesis of substituted thioureas	63
3.2. Synthesis of biphenyl based bithiazole derivatives	79
3.2.1 Synthesis of intermediate (5)	80
3.3. Alternative scheme of synthesis of biphenyl bithiazole derivatives	88
3.4. Conclusion of synthesis	91
3.5. General procedure for cyclisation by using microwave	91
3.6. Result and discussion	114

4. Chapter 4: Synthesis of pyridine based thiazole derivatives	116
4.1. Synthesis of pyridine based monothiazole derivatives	117
4.1.1. Synthesis of intermediate (14)	118
4.1.2. General procedure for the synthesis of (15a-o)	128
4.1.3. Analytical data of all the compounds (15a-o)	130
4.1.4. Result and discussion	135
4.2. Synthesis of pyridine based bithiazole derivatives	137
4.2.1. Synthesis of intermediate (18)	138
4.2.2. General procedure for the synthesis of (19a-u)	144
4.2.3. Analytical data of bithiazole derivatives (19a-u)	146
4.2.4. Result and discussion	151
4.3. Synthesis of pyridine and phenyl based bithiazole derivatives	153
4.3.1. Synthesis of intermediate (24)	154
4.3.2. General procedure for the synthesis of (25a-u)	160
4.3.3. Analytical data of bithiazole derivatives (25a-u)	162
4.3.4. Result and discussion	178
5. Chapter 5: Biological Evaluation	180
5.1. Antimicrobial study	180
5.1.1. Materials and Methods	181
5.1.2. Micro-organisms	182
5.1.3. Medium	183

5.1.4. Antibacterial study	184
5.1.5. Antifungal study	185
5.1.6. Antibacterial and antifungal activity of 8a-u	186
5.1.7. Antibacterial and antifungal activity of 15a-o	189
5.1.8. Antibacterial and antifungal activity of 19a-u	192
5.1.9. Antibacterial and antifungal activity of 25a-u	195
5.2. Cytotoxicity study	197
5.2.1. MTT assay	198
5.2.2. Materials	199
5.2.3. Methods	199
5.2.4. Cytotoxicity study of thiazole derivatives (15a-25u)	204
6. Summary and Conclusion	211
6.1. Antibacterial activity	213
6.2. Antifungal activity	214
6.3. Cytotoxicity activity	216
7. References
