First and foremost, I would like to express my gratitude to my esteemed supervisor Dr. D. Patric Raja, for support and the valuable guidance that he offered during my course work and thesis preparation. I wish also to thank him for his large amount of patience and his deep human understanding.

Special thanks to my esteemed co-supervisor Dr. V. Irudayaraj for the help and comments at all times during this research. I wish also to thank him for his active cooperation.

I express my gratitude to Dr. L. Louis Jesudass, Professor and Head of Botany Department St. Xavier’s College, Palayamkottai, for his kind words, technical advice and the freedom that he offered me during my study.

With pleasure I extend my heartfelt thanks to Rev. Fr. Dr. Alphonse Manickam, Principal and Rev. Fr. Dr. Antony S.J., Former Principal, St. Xavier’s college, Palayamkottai, for giving me a chance to do this course.

I am grateful to Dr. Henry Joseph, Dr. John De Britto, Dr. Beschi, and Dr. Sahaya Antony Xavier, Dept. of Botany, St. Xavier’s college, for their valuable help during this research.

I have great pleasure in expressing my heartfelt gratitude to The Registrar, The Research Co-ordinator and Others Staff, Research
Department, Manonmaniam Sundaranar University, Tirunelveli for their providing a profound opportunity to pursue the research.

I owe my sincere thanks to Director’s Institute of Forest Genetics and Tree Breeding, Coimbatore and Mr.T. Gunasekaran, I.F.S., for their love, encouragement and timely help during this research.

My deep sense of gratitude and sincere indebtedness to Dr. V. Sivakumar, who is the source of inspiration which enable me to write this work. Many of the protocols deployed by me in field and lab were fine shaped by him. I equally wish to extend my appreciation and thanks to Dr. Rekha Warrier and Anandalakshmi, who meticulously went through the research and improved its quality significantly.

My heartfelt thanks to Dr. C. Swaminathan, Vice chancellor, Bharathiar University, Prof. S. Manian, Head, Department of Botany & Director School of Life Sciences, Bharathiar University, Prof. A. Rajendran, Department of Botany, Bharathiar University, for their endless help.

I am deeply indebted to my brother Dr. C. Murugan, without whose careful attention I could not possibly have succeeded. I wish also to thank him for his immeasurable help and constant encouragement.

Many of my warm thanks are going to A.M. Kumar, S.N. Vijayachandran, G.Chevanan, N.P.Mahadevan, Geetha, Manimuthu and Shanthi, all people helpful me to complete the work.
