ACKNOWLEDGEMENTS

At the end of my thesis I would like to thank all those people who made this thesis possible and made it an unforgettable experience for me. At this moment, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study.

First of all, I am deeply grateful to my advisor Prof. Tarlok Singh Banipal, Department of Chemistry, Guru Nanak Dev University. This thesis grew out of a series of dialogues with my supervisor Prof. Banipal. To work with you has been a real pleasure to me. You have been a steady influence throughout my Ph.D. career; you have oriented and supported me with promptness and care, and have always been patient and encouraging in times of new ideas and difficulties; you have listened to my ideas and discussions with you frequently led to key insights. Your ability to select and to approach compelling research problems, your high scientific standards, and your hard work set an example. I admire your ability to balance research interests and personal pursuits. Your capacity to combine critique with an immediate empathy and commitment towards workers and others engaged in struggle will always inspire me.

Furthermore, I am very grateful to Dr. Parampaul Kaur Banipal, Associate Professor, Department of Chemistry, Guru Nanak Dev University, for insightful comments and suggestions both in my work and in this thesis, for her support, and for many motivating discussions and providing lab facilities.

I must acknowledge the Department of Chemistry, Guru Nanak Dev University and its faculty, which has been instrumental for my academic achievements. My sincere thanks are due to Prof. Balwinder Singh Randhawa, Head, Department of Chemistry, Guru Nanak Dev University, Amritsar for providing me the requisite laboratory and other essential research facilities.

My sincere thanks also goes to Prof. M. Mahajan and Dr. Sumanjit Kaur for providing requisite laboratory and other essential research conveniences. I am also thankful to the non-teaching and library staff for their time to time help.
In addition, I have been very privileged to get to know and to collaborate with many other people who became friends over the last several years. My special appreciation goes to Dr. Gagandeep Singh, Dr. Poonam Patyar, Dr. Damanjeet Kaur, Dr. Jasbir Kaur, Mr. Harpreet Singh, Mr. Vickramjeet Singh, for their friendship and encouragement. I learned a lot from all of these peoples about life, research, how to tackle new problems and how to develop techniques to solve them.

I would also like to thank Er. A. K. Sood, for providing a stimulating and fun environment which encouraged me to work hard during the time of disappointments.

Dr. Chandar Mohan, Dr. Gaurav Bhargav, Dr. Vipan Kumar, Dr. Amit Anand, Dr. Parvesh Kumar been a pleasure to work with and also thankful to these friends for providing constructive ideas and help when required. I also owe my thanks to those who have been a part of my life but I failed to mention.

Personally, I would like to thank my family for supporting me throughout the years, financially, practically and with moral support, especially my parents, S. Piara Singh and Mrs. Balwinder Kaur. Thank you for not only supporting me on the good days but encouraging me to keep going on the dark days. Finally, love and thanks must go to my wife, Manjinder Kaur and daughter PARI, who have been a continual source of support, strength and motivation and for that I am forever grateful. Also I express my appreciation & bundle of thanks to my sister, brothers and brother in law (Mr. Parminder Pal Singh) for their support and valuable prayers. It would have been impossible for me to finish this work without your encouragement and blessings.

Last but not least! I owe my reverence to the Almighty for his blissful gesture of giving me an opportunity to complete my Ph.D. thesis.

Kultar Singh
