ACKNOWLEDGEMENT

At the outmost, I am thankful to Almighty who has instilled in me the courage and determination and without whose wish nothing can happen in this universe.

Unguided efforts and unguided energies are all waste. No human efforts could climb the ladder of success without being given the right direction. It is my proud privilege to submit this thesis under the valuable guidance of Dr. S.I Rizvi whose encouragement and help enabled me to carry out this research. His vast knowledge, experience and undisputed expertise of the subject have been a constant source of guidance for me.

I express my deep sense of gratitude to Prof. B. Sharma, Head, Department of Biochemistry, for his constant motivation, scientific interest, great insight and guidance throughout my research. His patience and willingness to help me will be remembered with deep sense of indebtedness.

I am also very thankful to Prof. D.K Gupta who gave me the opportunity to get enrolled in the department.

I would like to express my sincere thanks, gratitude and humble appreciation to Prof P.C. Mittal and Dr. Abhay Kumar Pandey, Department of Biochemistry, University of Allahabad for their support, and encouragement throughout my research period.

My warmest thanks are due to my colleagues Dr. M Abu Zaid, Dr. Rafat Anis, Dr. Neetu Mishra, Dr. P.K Maurya, Dr. Rashmi Jha, Mr. Kanti Bhushan Pandey, Ms. Shilpa, Ms. Ruchita and all my friends for their help and support throughout my work.

I would also like to extend my thanks to my father Mr. A.K. Srivastava, my mother Mrs. Shobha Srivastava and my younger sister Ms. Preeti Srivastava for their constant support, encouragement, faith, confidence and patience which constantly helped me to shape my present and future. I would not have finished this programme without their wholehearted love and support.

Last but not least, I thank all those volunteers who provided their blood samples and valuable assistance without which it would have been impossible to accomplish my deep-hearted objective.
Dedicated to
The Almighty
