List of Figure

Figure 1.1: Structure of polyimides

Figure 1.2: Example of some commercial polyimides

Figure 1.3: Rigid and kinked dianhydride (BPDA)

Figure 1.4: Polyimides derived from PMDA and diphenylamine

Figure 1.5: Polyimides derived from PMDA and \( m \)-phenylenediamine

Figure 1.6: 2, 2’-disubstituted -4,4’-diaminobiphenyls

Figure 1.7: 2, 2’-disubstituted-4, 4’, 5, 5’-biphenyltetra carboxylic dianhydrides

Figure 1.8: Polyimides containing n-dodecyl side chains

Figure 2.1: IR spectra of diamine monomers

Figure 2.2: \(^1\)H-NMR spectrum of bis-4,4’[(4-aminophenyl-2,2-isopropylidene phenyloxy)]diphenyl sulfone

Figure 2.3: \(^1\)H-NMR spectrum of bis-4,4’[(4-aminophenyl-2,2-isopropylidene phenyloxy)]benzophenone

Figure 2.4: IR spectra of polyimides PI-1, PI-3 and PI-5

Figure 2.5: \(^1\)H-NMR spectrum of polyimides PI-2

Figure 2.6: \(^1\)H-NMR spectrums of polyimides PI-6

Figure 2.7: TG curves of polyimides (PI-1 to PI-6)

Figure 2.8: X-ray diffractograms of polyimides (PI-1 to PI-6)

Figure 3.1: \(^1\)H-NMR spectrum of monomer 4,4’-bis(4-aminophenoxy) diphenyl sulfone

Figure 3.2: IR spectra of bis(nitrophthalimide)s monomers

Figure 3.3: \(^1\)H-NMR spectrum of monomer 4,4’-bis(4-nitrophthalimido 4-phenoxy)diphenyl sulfone

Figure 3.4: IR spectra of poly(etherimide)s PEI-1, PEI-5 and PEI-7
Figure 3.5: $^1$H-NMR spectrum of poly(etherimide) PEI-2 ................................................. 87
Figure 3.6: $^1$H NMR spectrum of poly(etherimide) PEI-7 ................................................. 88
Figure 3.7: TG curves of poly(etherimide)s PEI-1 to PEI-4 ................................................ 91
Figure 3.8: TG curves of poly(etherimide)s PEI-5 to PEI-8 ............................................... 91
Figure 3.9: X-ray diffractograms of poly(etherimide)s (PEI-1 to PEI-6) ......................... 93
Figure 4.1: $^1$H-NMR of N-(4-hydroxyphenyl)-4-nitrophthalimide .............................. 105
Figure 4.2: $^1$H-NMR of N-(3-hydroxyphenyl)-4-nitrophthalimide .............................. 106
Figure 4.3: $^1$H-NMR of N-(5-hydroxynapthyl)-4-nitrophthalimide ............................. 107
Figure 4.4: $^1$H-NMR of N-{4-[2-(4-hydroxyphenyl)]} ............................................. 108
Figure 4.5: IR spectra of poly(etherimide)s APEI-2, APEI-3 and APEI-4 ...................... 113
Figure 4.6: $^1$H-NMR spectrum of APEI–4 ................................................................... 114
Figure 4.7: TG curves of poly(etherimide)s APEI-1 to APEI-4 .................................... 118
Figure 4.8: X-ray diffractograms of poly(etherimide)s (APEI-1 to APEI-4) .............. 119
Figure 5.1: IR spectra of diimide-diol monomers ............................................................. 132
Figure 5.2: $^1$H-NMR spectrum of N,N'-bis(4-hydroxyphenyl)-pyromellitic diimide monomer ................................................................. 133
Figure 5.3: $^1$H-NMR spectrum of N, N'-bis[(4-hydroxyphenyl)-2,2 isopropylidene-(4-phenyl)]pyromellitic diimides monomer ................................. 134
Figure 5.4: IR spectra of poly(esterimide)s ................................................................. 138
Figure 5.5: TG curves of poly(esterimide)s PESI-1 to PESI-6 ....................................... 143
Figure 5.6: TG curves of poly(etherimide)s PESI-7 to PESI-12 ..................................... 144
Figure 5.7: X-ray diffractograms of poly(esterimide)s ................................................ 145
Figure 6.1: IR spectrum of compound 4-(4-aminophenoxy) benzonitrile and 4-(4-aminophenoxy)benzoicacid ......................................................... 155
Figure 6.2: $^1$H-NMR spectrum of 4-(4-aminophenoxy)benzoicacid .......................... 156
Figure 6.3: $^1$H-NMR spectrum of N,N-bis(4-carboxyphenyl-4-oxyphenyl) oxydipthalimide ..................................................................................................................... 158

Figure 6.4: IR spectra of poly(amideimide)s PAI–2, PAI–6 & PAI-8....................... 163

Figure 6.5: TG curves of poly(amideimide)s (PAI-1 to PAI-4).................................. 167

Figure 6.6: TG curves of poly(amideimide)s (PAI-5 to PAI-8)................................. 167

Figure 6.7: X-ray diffractograms of poly(amideimide)s ............................................. 168
