ACKNOWLEDGEMENTS

I am fortunate to work with a Ph.D. advisor like Dr. Yogendra Sharma, who introduced me to the world of science and trained me to carry out research independently. I take this opportunity to thank him for his guidance and encouragement throughout the course of my research. He has been a constant source of support and given enough freedom to think, plan and execute the experiments.

CCMB provided the right environment for pursuing Ph.D. degree. I thank the Director, Dr. Lalji Singh for maintaining such high standards. I would like to thank CSIR for research fellowships.

I thank Dr. Sankaranarayanan for his guidance in crystallization experiments. Rajkumar and Shanmugam have always been of help. I am grateful to Giridharan of Digital imaging facility, for his help in making final figures for the manuscripts and also for this thesis.

My sincere thanks to Preetha, for her help and support especially during the early phase of my Ph.D. I gratefully acknowledge Kulanand for his help in membrane overlay experiments. I also thank Subbalaxmi and Krishna Kumari for their help with HPLC and FPLC facility. I thank Prof. Balasubramanian, Dr. Mohan Rao, Dr. Madhusudhana Rao and Dr. Ramakrishna Murthi for their critical suggestions and corrections of manuscripts, which improved their quality. My thanks go to Raman, Rajaram, Siva, Shraddha, Priyamvada, Siddharth, and Ritu for helpful suggestions.

I thank all the past (Kaberi, Anurag, Annapurna Malavika, ...) and present members of the lab, for providing the right ambience to work in the lab. I also thank Murali for creating a cheerful atmosphere in the lab, making it a wonderful place to work. Special thanks to Jobby and Aravind for proofreading my thesis. My sincere thanks go to Kannan for formatting this thesis.

I have had a lot of nice times being a member of West Wing First floor which I will remember always and it has been a great pleasure to work among people like, Sreedhar Rao, Srinivas, Vijaya Gopal, Prasad, Saloni, Satya, Waseem, Amit, Tirumal, Faiz, Shoeb, Bhairab, Abhay, Zahid, Dev, Poornima, Vijaya Laxmi, Ramdas, Anita, Anuradha, Ramchander, Rukmini, Jyothirmayee, Srilatha and Jennifer.

I would like to thank Sayeedji for maintaining the laboratory in a very good condition, and without his help many of the experiments would have not been possible. Ehsanji and Venuji have always been helpful.
I thank all the members of the instrumentation group for maintaining the instruments in a proper condition and attending them whenever required without delay. I also thank all staff members of photography section, digital imaging, animal house, photocopying section, canteen, library, stores and purchase, fine chemicals division and administration section for their services rendered.

Pallavi, Uma, and Prathima, were always been good friends and they made sure I had their support whenever needed. I always cherished their friendship.

I thank my parents and brothers, for their love and support throughout. My elder brother has always been my guiding light. I thank him for his constant support and encouragement during the course of my education. The support and help of my husband, Srinivas Reddy, during Ph.D. work and at the time of thesis writing is highly acknowledged. I also thank my little daughter, Harshitha, for cooperating with me during thesis work. I am greatly in debt to my mother for her unconditional help, without which I could have not finished this thesis work.
