Acknowledgements

Apart from the efforts of oneself, the success of any project depends largely on the encouragement and guidelines of many others. I take this opportunity to express my gratitude to the people who have been instrumental in the successful completion of this thesis. It gives me immense pleasure to acknowledge my indebtedness and profound sense of gratitude to those without whom this thesis would not have been possible.

First and foremost, it gives me profound pleasure to put on record my heart-felt gratitude to my esteemed supervisor, Professor (Dr.) Tarsem Singh Gill, Emeritus scientist, Department of Physics, Guru Nanak Dev University, Amritsar for not only guiding me with his experience and knowledge but also for providing a very informal and relaxed environment. I am deeply indebted to him for his sagacious suggestions, constructive and healthy criticism, unswerving patience and perpetual encouragement that I have been perceiving throughout the course of present research work. It was indeed a great experience to work under his scholarly guidance and supervision. The reminiscence of our day long discussions during the early phase of this work are fondly remembered.

I take this opportunity to express my sincere gratitude to Dr. Nareshpal Singh Saini, Reader, Department of Physics, Guru Nanak Dev University, Amritsar for his competent supervision and advises, made this difficult task a very pleasant and memorable one. My sincere thanks are due to Dr. Harvinder Kaur, Head, Department of Physics, Khalsa College, Amritsar for her constant encouragement.
I am also highly obliged to Dr. Lakhwant Singh, Head, Department of Physics, Guru Nanak Dev University, Amritsar for providing full cooperation during the entire work. My thanks and appreciations also go to the library staff and all faculty members specially Dr. R.C. Singh and Dr. Kuldeep Singh who have willingly helped me with their abilities at the time of need.

I am extremely thankful to Guru Nanak Dev University, Amritsar, India for providing me fellowship to carry out this research work.

My acknowledgment would be incomplete if I do not mention the unconditional support of plasma group members Dr. Parveen Bala, Dr. A. S. Bains, Dr. Chanchal Khullar, Dr. Jatinder Kaur, Dr. Atul Bhardwaj, Ravinder Kaur, Sandeep Kaur, Prof. Balwinder Singh Chahal, Shalini and Ripin Kohli for their ever willing co-operation and moral support.

It is high time to acknowledge my friends Suhail Gupta, Ravinder Kaur, Dr. A. S. Bains, Dr. Anu Bajaj, Sunil Kumar, Onkar Singh and Sanjeev Sharma for their valuable feedback and help during the high and low times of all these years. I do not have words enough to honor my parents and brother Major Param Harsh whose constant encouragement and moral support has always been there without which it would not have been possible to carry out this research work.

My special thanks are due to my partner Mr. Suhail Gupta and mother-in-law Smt. Santosh Kumari for their endless love, encouragement and patience during the odyssey to get me to the right path for achieving success.

At last, I bow my head humbly before the Almighty for making me capable of completing my Ph.D. Thesis. I have accomplished this huge task with His blessings.
