Appendix

Only those who attempt the absurd will achieve the impossible

M.C. Escher
10. APPENDIX.

10.1 List of Publications.

12. Molecular mechanism leads to SEMA-3A dependent suppression of tumor progression and angiogenesis. Goutam Chakraborty, Shalini Jain and Gopal C. Kundu. (*Manuscript Under Preparation*).

15. Osteopontin Regulates Prostate Tumor Growth, Metastasis and Angiogenesis by modulating the balance between NF-κB and FOXO3a. Shalini Jain, Goutam Chakraborty, Ramya Raja, Smita Kale and Gopal C. Kundu. (*Manuscript Under Preparation*).
10.2 Conference Presentations.

1] Poster entitled “Osteopontin Regulates VEGF Dependent Tumor Angiogenesis through Autocrine and Paracrine Pathways” by Goutam Chakraborty, Hema Rangaswami, Shalini Jain, Madhumita Pradhan and Gopal C. Kundu was presented in International Symposium on Translational Research: Apoptosis and Cancer, Trivandrum, Kerala, December 18-21, 2005 (Awarded as Best Poster).

10.3 Abstracts Accepted in International Conferences

3. **4th International Conference on Tumor Microenvironment:** Progression, Therapy and Prevention, Florence, March 6-10, 2007.
