The list of papers published in reputed journals and conferences are given below.

[1] Electron density determination of laser induced plasma from Poly Methyl Methacrylate using phaseshift detection technique

[2] Investigations on laser induced plasma from superconducting YBa$_2$Cu$_3$O$_7$ and NdBa$_2$Cu$_3$O$_7$ using photothermal phase shift spectroscopy

[4] Photoacoustic and optical limiting studies in C$_{60}$

[5] A study of photoacoustic effect and optical limiting in the solution of C$_{60}$ in toluene
