ACKNOWLEDGEMENTS

I express my sincere gratitude to my supervisor, Dr. Anand Kar, Professor in Life Sciences, DAVV, for his constant guidance in research and in publications of the findings.

I also express my boundless gratitude to Prof. Suresh Chand, Head, School of Life Sciences, DAVV, Indore, for his help, solicitude and for providing me necessary facilities required for conducting the experiments.

I am especially grateful to Prof. K.N. Guruprasad, Prof. S. Patil, Prof. K. Hajela, Prof. G. P. Pandey, Dr. A. Jajoo, Dr. T. Banerjee, Dr. R. Jatwa and Dr. V. Thakur, all from School of Life Sciences, DAVV, Indore, for their moral support, wise counseling, continuous encouragement and valuable tips during my Ph. D work.

I am especially grateful to Dr. (Ms). Sunanda Panda for her help in standardizing laboratory protocols/techniques, valuable suggestions and support throughout the Ph.D. tenure. I would like to extend my thanks to my seniors Dr. Hamendra Singh Parmar, Asst Prof. in Biotechnology, DAVV, Indore, Dr. Rameshwar Jatwa, Asst Prof. in Life Sciences, DAVV, Indore, Dr. Prachi Mishra (USA) and Dr. Yamini Dixit (Delhi) and Dr. Asha Thomas (Delhi) for their unconditional and selfless support. Many thanks to my lab colleagues, Mr. Narendra Kumar, Ms. Jyoti Agrawal, Mr. Naveen Dhingra, and Ms. Sadhna Notwani who also provided me some help and support and cooperated me a lot.

I owe my deep gratitude to my friends Ms. Teena Tongra, Ms. Divya Agrawal, Mr. Girish Pendharkar, Mr. Shadab Khan and Mr. Anand Krishna Singh and also to my
junior Mr. Syed Danish Anjum for their moral support. I also extend my sincere thanks to Dr. Sunita Katariya and my friend Miss. Nidhi Mishra for helping me in some ways.

The love and support provided by my family has meant more to me than I can ever put into words. I express my indebtedness to my beloved family members, Mummy (Mrs. Saroj Sharma); Daddy (Mr. G.K. Sharma) and my sister (Mrs. Nidhi Acharya) for their trust, patience, affection, support, blessings and love. I wish to express my heartfelt thanks to my brother Mr. Amitosh Chaturvedi for his timely help while working with MS-office. This thesis would not have been possible without the strong faith, support, encouragement and selfless help from them.

I would also like to acknowledge Mr. R. Lad and Mrs. Yamini for preparing histopathological slides. I acknowledge all the technical and supporting staff of School of Life Sciences, especially Mrs. Rekha Agrawal, Mrs. Vandana Choudhary, Mr. Babulal Yadav and Mr. Rambalak Yadav, who helped me in one or the other way in carrying out these investigations.

Financial support from the University Grant Commission (UGC), New Delhi, India, through Fellowship in Science for Meritorious Student Scheme [(No. F-4-3/2006 (BSR)/5-26/2007 (BSR)], is also thankfully acknowledged.

(Neha Sharma)
