ACKNOWLEDGEMENTS

First and foremost, I would like to thank my parents Shri. Devireddy.Muktheswara Rao and Smt. Kalavathi, who have been the pillars of strength in all my endeavors,. I am always deeply indebted to them for all that they have given me. Without their support and encouragement at crucial periods of my life, it would not have been possible for me to pursue higher studies and aim for greater things in my career. Their hard work and positive attitude is my main source of inspiration.

I am grateful to my advisor Dr. Tiruveedhula Venkateswara Rao Principal, Khammam Institute of Technology and Sciences, Khammam, for providing me the opportunity to work in an exciting and challenging field of research. I have been privileged to have Dr. Iyyanki V. Murali Krishna Professor & Head, Center for Spatial Information Technology, JNTU and Director(Rtd.), R&D, JNTU as my co-advisor. He has helped define my research and presentation skills and I am deeply indebted to him for making the Ph.D. experience a memorable one. Their constant motivation, support and infectious enthusiasm have guided me towards the successful
completion of this thesis. My interactions with them have been of immense help in defining my research goals and in identifying ways to achieve them. Their encouraging words have often pushed me to put in my best possible efforts. Their valuable comments and suggestions have been very useful in enhancing the presentation of this thesis.

The NIET CS lab is an excellent place to work in and it is one place where you can always find good company, no matter what time of the day it is. My interactions with members of this lab have certainly made me a better professional. Finally, I would like to thank Mr. K. Siva Nagi reddy, Mr. N.Vijay Kumar, Mr.M. Rama Krishna and Mr. T.Nageswara Rao for engaging me in useful discussions many a time.

Finally, I would like to thank the other members of my family including my sister and friends for their love, affection and timely help.

SRINIVASA KUMAR DEVIREDY
